

TOOLS BUILT TO LAST

Trick-Tools has the largest selection of hardcore, no-compromise metal fabrication tools and equipment on the planet!

OUR PHILOSOPHY:

We believe that long-lasting, quality tools are not only the best value in the end, but something you can enjoy using and will help you take your fabrication to the next level. The products you see in this catalog are hand picked from top manufacturers around the world. We aren't limited to offering you one tool brand but choose the best in each category and provide options for the home shop as well as high production manufacturing. Let our Solution Specialists help you determine the best tool for your application. When we help you with a recommendation, we are glad to offer our No Junk Guarantee.

"The bitterness of poor quality is remembered long after the sweetness of low price has faded from memory."
-Aldo Gucci

OUR GUARANTEE:

Here at Trick-Tools we believe that our customers deserve lasting value in their tool and equipment purchases. We are constantly searching for high quality, unique and hard to find tools to offer at the best prices possible. Our commitment to you is that we will not offer "cheap junk" anywhere on our website. You, the customer, help us to evaluate our products constantly and as soon as an ongoing quality issue is uncovered, we will correct it or discontinue that product immediately. We hope to earn your continued trust.

COME VISIT US!

We're more than just a website. Our 25,000 sq ft facility features a warehouse and showroom that showcases a wide variety of hardcore fabrication tools for the home hobbyist, all the way to production machines for industrial applications.

Our showroom is located at 75 Truman Rd, Pella, IA, just 25 miles south of Interstate 80. Our office hours are from 8:00am - 5:00pm CST Monday through Friday. If you're in the area, we invite you to stop by our showroom to see the tools on display and see how we can help you take your fab shop to the next level!

FAST **SAME DAY SHIPPING**
ON IN-STOCK ORDERS BY 3PM (CST)

Terms: We ship UPS and accept Visa, Mastercard, American Express, Discover, and PayPal. Shipments via common carrier must be prepaid and will be FOB point of origin. No returns without prior approval. No returns after 30 days. Products must be in original package in new/unused condition. Returns must be shipped prepaid. A 15% restocking fee will be applied. Any claims for damage or loss must be filed with carrier by purchaser. Pricing and specifications are subject to change.

Lease Terms: Posted lease prices are based off of the products pricing at the time of printing and a customer's best possible credit score. All posted lease pricing is subject to change and is not a guaranteed price. **See website for online application and 30 second approval.**

WIXEY

DIGITAL ANGLE GAUGE

- Perfect for finding true bevel angles on a saw and track rotation of a tube when tube bending
- Gauge can be "zeroed" at any point
- Large backlit display
- Features a strong magnetic base
- Accurate to .1°
- Includes additional battery
- Optional base attaches to round tubing or pipe that is 3/4 inch through 2 inch OD

WR300-T2 Digital Angle Gauge	\$33.24
Digital Angle Gauge and Tube Rotation Bracket Combo	\$89.99
Tube Rotation Bracket Only (attaches to 3/4"-2" round tube)	\$59.99

ANGLE LEVEL II

DIAL LEVEL

- Critical for projects demanding accurate angle measurements
- Angle Level settles smoothly to the angle due to its oil damped ball bearing movement
- Features a strong magnetic base allowing hands free use on ferrous materials
- Accurate up to .1 degree
- Carrying case included

Angle Level 2 (1/10°) (3.6" x 3.1")	\$59.95
Angle Level 3 (1/20°) (5.5" x 5", die cast housing)	\$169.95

TUBE ROTATION GAUGE

- Useful in bending and notching to track tube rotation
- Accurate up to 1/10 degree
- The powder coated steel base clamps securely on round tubes
- Great for chassis or exhaust work

ALB Angle Level Base (up to 2" tube)	\$34.95
ALB Combo (Includes Angle Level 2 & ALB) Save \$15!	\$79.90

HUTH

ROTATION GAUGE

- Perfect for large diameter tube bending applications such as exhaust, turbo, and cold air intake systems
- Accurate up to 1°
- Features a 0-360° range and has a capacity of 1-1/4 - 3" OD

996 Clockwise Rotation (Huth bend cards)	\$316.50
976 CC Counter-Clockwise Rotation (Non-Huth bend cards)	\$316.50

DIGI-PAS

DIGITAL LEVELS

- The DWL80E is a handy pocket-sized digital level great for hobbyist and professional use.
- Displays in degrees and percent of slope
- Made from impact resistant materials and features a magnetic v-groove base for working with round and flat material.
- Range: 0 - 90°
- Resolution: 1/10° at 0 and 90° | 1/5° at all other angles
- Accuracy: 1/10°
- Dimensions (LxWxH): 4.25" x .5" x 2"

Digi-Pas DWL-80E Digital Level (0.10° accuracy)	\$36.90
Digi-Pas DWL-80Pro Digital Level (0.05° accuracy)	\$45.90

DIGI-PAS

DIGITAL LEVELS

- Displays in degrees and percent of slope
- Illuminated Display automatically rotates for inverted readings.
- Features an aluminum rail construction and two bubble levels
- Range: 0-90°
- Resolution: 1/20° at 0 and 90° 1/5° at all other angles
- Accuracy: 1/10°

DWL280Pro Waterproof Digital Torpedo Level (9.25" x 2.5")	\$69.90
DWL680Pro Waterproof Digital Torpedo Level (24.5" x 2.5")	\$139.00

DIGI-PAS

MACHINIST LEVEL

- Designed for leveling and aligning precision welding tables, milling machines, fixturing, surface grinding, etc.
- Instant single access display measurements of both X or Y axis
- Connect to Smartphone via Digi-Pas Machinist App for remote operation up to approx. 50 feet.
- Accuracy of DWL1300XY: +/- 0.004° from 0 - 0.5° +/- 0.04° from 0.5 - 5°
- Accuracy of DWL1500XY: +/- 0.0004° from 0 - 0.5° +/- 0.004° from 0.5 - 2°

DWL-1300XY (0 - 5° range, 1/100° res)	SALE! \$325.00
DWL-1500XY (0 - 2° range, 1/1000° res)	SALE! . . . \$525.00

SMART TOOL

DIGITAL LEVEL

- Accurate to .1°
- Displays degrees, slope %, and pitch (in/ft) with arrows to show the direction to move towards level
- Gauge can be "zeroed" at any point
- Display inverts when the tool is moved beyond 90 degrees
- Battery (9 volt) lasts about 400 hours of use

Digital Smart Tool (module only)	SALE! \$199.95
----------------------------------	--------------------------

CHECKPOINT

TORPEDO LEVELS

- Designed for portability, efficiency, and professional durability
- Made from anodized billet aluminum
- Features multiple precision vials for horizontal, vertical, and other varying degrees of measurement
- Incorporates rare earth magnets on flat bottom surface for a secure hold

300, Ultra Pro Mag G3	\$44.99
327, Laser Level with Magnets	\$119.99

WIXEY

DIGITAL PROTRACTOR

- Range: 0 - 180°
- Resolution: 0.1°
- Accuracy: +/- 0.1°
- Auto shutoff for extended battery life
- Legs are 2 inches wide
- Built-in magnets on the edge of the legs
- Legs can be tightened for holding measurement

WR410 Digital Protractor (9" long legs)	\$75.99
WR418 Digital Protractor (18" long legs)	\$94.99

CCKL CREATOR

ANGLE FINDERS

- Find any inside or outside angle between 20° to 170°. Choose from four different models.

Angle Finder I (plastic 6")	\$9.95
Angle Finder II (aluminum 20")	\$39.95
Angle Finder III (stainless 4")	\$59.95
Angle Finder IV (stainless 20")	\$79.95
Angle Finder Combo (includes Angle Finders II and III) SALE!	\$89.90

MITTLER BROS.

BEND PROTRACTORS

- These high-quality bend protractors will help you duplicate bends that are found in existing parts.
- Easy to set for any degree of bend from 0° to 90°
- Can be used as a bend template or degree indicator
- Inner scale shows degree of bend
- Outer scale shows length of tube consumed in a bend
- Precision CNC engraving
- Anodized aluminum construction

4" Centerline Radius Protractor	\$120.00	7" Centerline Radius Protractor	\$150.00
5" Centerline Radius Protractor	\$130.00	8" Centerline Radius Protractor	\$160.00
6" Centerline Radius Protractor	\$140.00	Complete Set of all five Protractors 4" through 8"	\$575.00

ARC-MASTER

RADIUS GAUGES

- Proven to speed up complicated calculations and fabrication of bent materials
- Used in applications such as handrails, spiral staircases, aircraft parts, and much more
- Kit includes two versions of the tool to accurately measure inside and outside radius of a piece
- Invaluable companion to any tube bender or slip roll
- Accurate to .5% or less

ArcMaster Large Radius Kit (6" - 144" Range)	\$264.29
ArcMaster Small Radius Kit (2.5" - 30" Range)	\$147.99

TRICK-TOOLS

RADIUS CHECK GAUGE

- This robust acrylic radius gauge from Trick-Tools is a valuable addition to any metal shaper's toolbox.
- Great for duplicating contours and assuring consistency in radiused sheet metal parts
- Provisions for 0, .75, 1, 1.25, 1.5, 2, 3, 4, 6, 12, 24, and 36 inch radii
- Invaluable in choosing the proper hammer, dolly, anvil wheel or planishing die to match your part

Trick-Tools Radius Check Gauge	\$25.00
--------------------------------	---------

TRICK-TOOLS

ADJUSTABLE RIVET SPACER

- Use this spacer to layout the spacing of rivets, bolts, nails, etc. equally over a length of up to 36 inches of material.
- Index lines at 3/4", 1", 1-1/4", and 1-1/2" assist in accurate and consistent hole spacing.
- Great for creating artistic patterns for bead rolling, custom furniture, race car, and aircraft fabrication.
- Stainless Steel construction for durability

20 Hole Adjustable Rivet Spacer	\$46.80
---------------------------------	---------

TRICK-TOOLS

HOLE FINDER KITS

- Use to locate blind holes in overlapping panels or when riveting sheet metal to any structure which already has holes drilled in it.
- Insert pilot pin into the existing hole and use the hardened bushing on the opposite strap to guide the drill bit.
- Sold in a 5 piece set, including #40, #30, #21, #10, and 1/4 inch.

13060 Standard Hole Finder Kit, 6 inch	\$48.00
13062 Inverted Hole Finder Kit, 6 inch	\$48.00
13230 Standard Hole Finder Kit, 13 inch	\$60.00

SPRING TOOLS

HAMMERLESS TOOLS

- Spring Tools has developed several hammerless tools including center punches, chisels, rivet removal tools, ping hammers, and industrial stamps.
- Spring produces 3500 lbs of impact striking force on standard tools and while the heavy duty industrial tools produce 5000 lbs of striking force.
- Made in the USA and great for fabricators, mechanics, pipe fitters, and the DIYer.

Individual Spring Tools (Cold Chisel, High Speed Steel Center Punch, or Combination Prick Punch and Center Punch)	\$12.95 ea.
Rivet Removal Set, 2-Piece (includes Cold Chisel and High Speed Steel Center Punch)	\$24.95
Heavy Duty Set, 4-Piece (5000 lbs of force, includes Center Punch, Self Centering Punch, Cold Chisel, and Tapered Punch)	\$54.95
Master Metal Working Set, 5-Piece (includes center punch, self-centering punch, combo prick/punch, cold chisel, ping hammer)	\$54.95
Stamping Kit, 39-piece (includes one driver, letters A-Z, Numbers 0-9, and ampersand (&) and asterisk (*) symbols)	\$64.95

TRICK-TOOLS

LAYOUT KITS

- Create perfectly radiused corners, precise notches, and pinpoint exact rivet locations with this handy layout kit.
- MarkerLock features a magnetic base and houses the included Markal Dura-Ink markers
- Sheet Metal Layout Kit includes:

Wehrs 3-piece Layout Kit	(3) Markal Dura-Ink 15 Markers, Black
Rivet Spacer	(1) Markal Dura-Ink 15 Marker, Silver
MarkerLock	(1) Markal Dura-Ink 15 Marker, Blue
(2) Markal Micro Tip Markers	(1) Markal Dura-Ink 15 Marker, Red

MarkerLock Marker Holder (fits Sharpie, Milwaukee Inkzall, or Markal markers)	\$14.99
SMLK, Sheet Metal Layout Kit SALE!	\$94.95
PLK, Panel Layout Kit SALE!	\$199.95

(1/8 inch Cleco Kit-25 pc, Rivet Spacer, TT Layout Tool Kit-3 pc, 6 inch standard hole finder kit, and Wehrs Machine Sheet Metal Bend Line Marker)

MITTLER BROS. BEAD ROLLERS

Finance as low as
\$46.00 / Month

- Mittler Bros Bead Rollers are designed to handle 16 ga. steel and .063 inch aluminum.
- Largest selection of heat-treated rolls to choose from
- Adjustable depth of bead
- Variable speed foot control allows for hands free operation
- Oilite bushings at all rotation points for long life
- Heat treated gears for years of trouble-free operation
- 1-1/8 inch throat height
- Forward and reverse switch for left or right-side operation.

- 24" Manual Bead Roller \$895.00
- 24" Power Bead Roller (add \$300 for dual adjustable shafts)..... \$1,875.00
- 36" Power Bead Roller (add \$300 for dual adjustable shafts)..... \$2,100.00
- Aluminum Worktable \$290.00

STANDARD SHAFT BEAD ROLLER KITS

	24" MACHINE	36" MACHINE
Basic Kit (includes Bead Roller, Rolling Stand, and 3 piece Basic Die Kit)	\$2,270.00	\$2,480.00
Dirt Car Kit (includes Bead Roller, Rolling Stand, and 4 piece Dirt Car Die Kit)	\$2,430.00	\$2,650.00
Restoration Kit (includes Bead Roller, Rolling Stand, and 6 piece Restoration Die Kit)	\$2,490.00	\$2,700.00

ADJUSTABLE SHAFT BEAD ROLLER KITS

Art Kit (includes Bead Roller, Rolling Stand, Worktable, Keyhole Washers, and 5 piece Art Roll Kit)	\$2,990.00	\$3,200.00
Hot Rod Kit (includes Bead Roller, Rolling Stand, Worktable, Keyhole Washers, and 7 piece Roll Kit)	\$3,200.00	\$3,410.00
Ultimate Kit (includes Bead Roller, Rolling Stand, Worktable, Keyhole Washers, and 19 piece Roll kit)	\$4,510.00	\$4,720.00

(See website for a complete list of roll sets included with each kit.)

PEXTO

ROTARY MACHINE

- This Pexto 622 forming machine offers a variety of shapes and capabilities for a combination of uses: beading, crimping, double seaming, turning, burring, wiring, elbow edging, flanging, and flattening.
- The 622 Series is equipped with the addition of a 7 inch deep throat for additional forming capabilities.
- The 622 includes 5 sets of rolls and gauges or may be ordered without rolls as the 622LR.
- 24 gauge mild steel capacity

622

622 Pexto Rotary Machine (includes Pexto 622, bench mounting base, and rolls)	\$1,537.00
622LR Pexto Rotary Machine (less rolls)	\$1,219.00

Finance as low as
\$106.00 / Month

JS TOOLS BEAD ROLLER

- The JS Tools SFM620 Power Bead Roller is a must-have for restoration and fab shops.
- The adjustable upper and lower shafts accompany the 50 die modular tooling system to create endless bead profiles for duplicating hard to find OEM panels and creating custom bodylines.
- The head can be adjusted 30 degrees up or down to create clearance for longer parts.
- Fasteners sit flush with the outside of the die sets, allowing for 90 degree flanges and wire beads to be accomplished with ease - a major advantage of this machine.
- Standard features include a variable speed motor, forward and reverse foot pedals, adjustable depth stop, and 5 roll sets including: 1.5mm round, 8mm round, 1mm offset step, flat roll, and flame roll sets.
- Deluxe Kit includes 49 roll sets and a rolling base for easy portability around the shop.
- Made in Sweden

- Throat Depth (inches): 24"
- Throat Height (inches): 1-3/16
- Mild Steel Capacity: .049" (18ga)
- Aluminum Capacity: .080"

24" Power Bead Roller (includes 5 roll sets)	\$4,795.00
24" Power Bead Roller Deluxe Kit (includes 49 roll sets)	\$8,575.00
Die Sets	Starting at \$100.00
Specialty Dies (individual rolls)	Starting at \$50.00

BAILEIGH POWER BEAD ROLLER

- The Baileigh BR-16E-36LT Bead Roller features a 36 inch deep throat, built-in adjustable depth stop, and an adjustable upper shaft for offsetting the top die in and out.
- A quick-raise top shaft allows for easy material loading and unloading without the need to change die pressure.
- The BR-16E-36LT Bead Roller uses a 110v, 1/2 hp motor and is rated to handle 16 ga mild steel, .063 inch aluminum, and .035 inch stainless steel.
- A variable speed frequency drive with a foot pedal control gives the operator unlimited speed adjustment for precise work on complex panels.
- This Baileigh machine uses 3/4 inch shafts and comes standard with a 1/4 inch round bead die set and a .05 inch art roll set.
- Made in the USA and backed by a 1-year manufacturer's warranty.

BR-16E-36LT Power Bead Roller SALE!	\$6,699.00
Standard Roll Sets	Starting at: \$150.00

BAILEIGH HD BEAD ROLLER

- The BR16E-36 Bead Roller features a 36 inch deep x 12 inch high throat - the largest available on the market!
- The bead roller is equipped with a variable speed frequency drive with a foot pedal control, giving the operator unlimited speed adjustment.
- The quick release upper die allows the upper roll to be disengaged from the material, while maintaining its depth when re-engaged, making it possible to begin or end a design in the middle of a panel.
- The bottom die can be adjusted in and out for greater flexibility with bead profiles.

- Steel Capacity: 16 gauge
- Aluminum Capacity: .065"
- Stainless Capacity: 20 gauge
- Throat Depth: 36"
- Throat Height: 12"
- Motor: 1/2 hp 110v

BEVERLY THROATLESS SHEARS

- Throatless design lets you turn your work at any angle for straight, curved, and irregular cuts.
- Upper and lower blades are positioned to provide a clean, knurl-free cut, regardless of material thickness.
- Easily cuts mild steel and stainless using tool steel blades
- Drilled for work bench mounting
- SS-2 and SS-3 slitting shears are available for making straight cuts in long sheets of material.

Model	BJ	B-1	B-2	B-3	SS-2	SS-3

FEIN SHEET METAL SHEARS

- FEIN shears are suited for quick and warp-free cut-outs in sheet metal.
- The QuickIN feature offers tool free blade changing with no further adjustments.
- Variable speed motor is easily adjustable for increased control
- FEIN products utilize outstanding ergonomics and compact design for optimal mobility.
- Excellent tools for sheet metal shops, race shops, HVAC work, and electrical installation.
- Corded and Cordless options are available!

ABLS 18 1.6E, AMPShare Cordless Shear Kit (16 ga. 18v Li-ion) **SALE!** \$849.95

MIDWEST AVIATION SNIPS

- Aviation snips are great for light sheet metal cutting and trimming
- Ergonomic handle reduces muscle stress and requires less hand force
- Useful in race car, heating and cooling, aircraft, and construction work
- Cuts completely to blade tip end which reduces cutting strokes and enables accurate trim cuts.
- Made in the U.S.A.

Aviation Snips (left, right, or straight cut) **SALE!** \$25.84 ea.
Aviation Snips, 3-piece Set **SALE!** \$73.68

MITTLER BROS. ULTIMATE SHEARS

Finance as low as
\$139.00 / Month

3000-72-24

- Designed with the fabricator in mind, these shears are the most economical way to accurately cut large pieces of material.
- Mittler Shears feature a reversible blade, adjustable blade clearance, adjustable hold down pressure, and a precision fabricated steel construction.

SPECIFICATIONS	3000-52-16	3000-72-24	3000-52-16-P
Operation	Manual	Manual	Pneumatic
Mild Steel Capacity	16 ga.	24 ga.	16 ga.
Aluminum Capacity	.080"	.040"	.080"
Cutting Width (inches)	52	72	52
Price	\$4,250.00	\$6,250.00	\$6,950.00

BETENBENDER HYDRAULIC SHEARS

- Betenbender hydraulic shears are available from 4ft to 14ft cut lengths, with cutting capacities from 1/8 inch to 1-1/4 inch plate!
- It's 36 inch powered back gauge with LED readout makes for quick adjustments, while the rake angle adjustment minimizes distortion.
- Blades are made from high carbon, high chromium material and have 4 cutting edges that assist in long blade life.
- Push button controls are close at hand, while the 2-position 110v foot switch lets you interrupt the cutting stroke at any point.
- Betenbender shears meet NFOA79 and ANSI B11.4 requirements.

Betenbender Hydraulic Shears Starting at \$38,200.00

BAILEIGH MAGNETIC BRAKES

Finance as low as
\$76.00 / Month

- Baileigh magnetic sheet metal brakes feature nearly endless bending possibilities.
- Capable of forming boxes to almost any depth due to their unlimited finger depth
- Features a stroke angle control that can be set for repeatable bends
- Includes a back gauge, full clamping bar, and box finger set
- 16 ga. mild steel capacity
- 220v 1ph power for easy placement

BB-4816M (48" working length, 16 gauge mild steel capacity) \$4,465.00
BB-7216M (72" working length, 16 gauge mild steel capacity) \$10,812.00
BB-9616M (96" working length, 16 gauge mild steel capacity) \$12,099.00

MITTLER BROS. RACER BRAKE

- Mittler Bros Racer Sheet Metal Brakes are ideal for race car bodies, HVAC work, and more.
- Features include a welded steel plate construction, tool free upper beam adjustment, machined cam with bronze bearings, and steel pivot pins for a smooth operation.
- A 1/2 inch radius bar (1 inch OD) is included with the 8 ft model for fragile aluminum applications or to add a nice flare to your material. Radius Bar is optional for the 6ft model.
- 22 gauge mild steel capacity • .040" aluminum capacity • 1" front to rear adjustment

2800-7222S, 6 ft Racer Brake, 22 gauge \$1,575.00
2800-9622S, 8 ft Racer Brake, 22 gauge (includes 1/2" radius bar) \$2,195.00

MITTLER BROS. ULTIMATE BOX & PAN BRAKE

- These brakes feature a "3 finger" design, incorporating movable fingers on the bed and apron, as well as the usual upper fingers, perfect for extremely difficult bend combinations.
- Unit ships standard with: 1", 2", 3", 6", 12", 24" Upper Fingers, Bed Fingers, and Apron (leaf).
- Ultimate Box & Pan Brake is capable of creating a 3-1/2 inch depth of box, and has a minimum flange capacity of 1 inch.

Ultimate Box & Pan Brake (48" benchtop, 16 ga capacity) \$3,950.00
48" Floor Stand \$310.00
Ultimate Box & Pan Brake (72" floor, 18 ga capacity) \$6,975.00

Finance as low as \$131.00 / Month

TENNSMITH STRAIGHT BRAKES

Straight brakes (or hand brakes) are designed to bend large pieces of sheet metal, including stainless, aluminum, mild steel, and more. Offered in both benchtop and floor models, this type of bending machine has one solid piece along the upper and lower beams, making it easy to set up and operate.

48 inch Benchtop Straight Brake, 22 gauge \$950.00
48 inch Benchtop Straight Brake, 16 gauge \$1,675.00
Optional Floor Stand for Benchtop Units \$299.00

48 inch Heavy Duty Straight Brake, 12 gauge \$4,675.00
72 inch Heavy Duty Straight Brake, 16 gauge \$4,900.00
96 inch Heavy Duty Straight Brake, 18 gauge \$5,125.00
96 inch Heavy Duty Straight Brake, 16 gauge \$6,025.00
120 inch Heavy Duty Straight Brake, 18 gauge \$7,475.00
120 inch Heavy Duty Straight Brake, 16 gauge \$8,575.00

BOX & PAN BRAKES

Box and pan brakes or 'finger brakes' have removable 2, 3, and 4 inch fingers to allow complex bending of sheet metal not attainable with straight brakes. Standard Tennsmith Box and Pan brakes have a 4 inch maximum depth of box, while the HD models have a 6 inch maximum box depth. Find the working length and gauge capacity that best fits your needs.

48 inch Benchtop Box & Pan Brake, 22 gauge \$1,150.00
48 inch Benchtop Box & Pan Brake, 16 gauge \$1,925.00
Shear and Box & Pan Brake Combo (Model 52 Shear and HBU48-16 Brake) .. \$6,175.00

48 inch Box & Pan Brake, 12 gauge (4 inch max depth of box) \$5,450.00
48 inch Box & Pan Brake, 12 gauge HD (6 inch max depth of box) \$7,125.00
72 inch Box & Pan Brake, 16 gauge (4 inch max depth of box) \$6,125.00
72 inch Box & Pan Brake, 12 gauge HD (6 inch max depth of box) \$10,925.00
96 inch Box & Pan Brake, 12 gauge (4 inch max depth of box) \$12,575.00

BEND PRESS BENCHTOP PRESS BRAKE

- Its small footprint makes this press a perfect fit for those with limited working space.
- With the optional 4-sided V-die made from 4140 tool steel, tight radius bends can be made in lighter weight materials.
- Uses common 20 ton bottle jack and requires no outside power source
- Perfect for bending small sections of sheet metal, plate steel, suspension, and body support brackets
- Bottle Jack not included
- Made in the U.S.A.

TENNSMITH

POWERED SLIP ROLL

- Tennsmith's Powered Slip Rolls feature 3, 3-inch power rolls designed for simple operation.
- Designed for production rolling of light gauge sheet metal into curved panels
- The SR48P has a 16 ga. mild steel capacity and a minimum forming radius of 1-1/2 inches.
- The powered rolls are precision turned, ground, and polished high carbon steel, while the end frames feature a cast iron construction with a welded steel base.
- All three rolls are power driven and come with a standard forward and reverse foot pedal.
- These machines feature a quick release upper roll, positive chain drive, and a HD gearbox.
- The rolls and gears are mounted in hardened bronze bushings for long life and precision operation.
- Proudly made in the USA

MITTLER BROS

BENCH PRESS

Finance as low as
\$96.00 / Month

- This Hydraulic Press features a rugged fabricated steel frame, 25 inch throat depth, and offers 10 tons of hydraulic pressure to accomplish a variety of tasks.
- Accepts all MB bench press tooling including punch & dies, corner rounding dies, louver tooling, brake tooling, punch & flare tools, and more!
- Can be used with most common hydraulic pumps

10 Ton Heavy Duty Hydraulic Bench Press \$4,500.00
 Floor Stand for 2210-HD Press \$495.00
 PowerX 10,000 PSI Electric/Hydraulic Pump w/ 10' Hose \$3,779.90

MITTLER BROS

BENCH PRESS

Scan for Video

- Fits punch & flare tools
- Rugged construction
- Bronze bushings
- Max capacity: 3 inch dia. punch & flare 16 gauge steel
- 12 inch deep throat
- Can be used as a standard arbor press
- Uses standard punch & dies for round, square, & oblong holes

Standard Bench Press (3 ton) \$1,150.00
 Hydraulic Bench Press (5 ton) \$1,375.00
 PowerX 10,000 PSI Air/Hydraulic Pump with 6' Hose and Fitting \$588.95

MITTLER BROS

PRESS ACCESSORIES

- Mittler Bros. Bench Press accessories turn your simple press into a brake, shear, corner notcher, louver press, and so much more!
- Mittler Bros. Bench Press accessories will fit all Mittler bench presses.

Complete Louver Assembly (w/ one die & tooling adapter) \$815.00
 Additional Louver Dies (1", 2", or 3") \$500.00 ea.
 (4" or 5") \$520.00 ea.
 90° Brake Kit \$205.00
 Corner Notcher Kit \$310.00
 Shear Kit \$230.00
 Corner Radius Punch (1/4", 1/2", 3/4", 1") \$265.00

PUNCH & DIES (heat treated tool steel with 1/32" die clearance for material up to 16 ga. mild steel)

3/16" - 1" Punch and Dies \$105.00 ea.
 Dzus Punch and Die Set \$310.00

LOUVER PRESS KIT

Finance as low as
\$42.00 / Month

- This kit includes a 10 ton hydraulic ram, precision slide assembly, die mounting plate, one louver die set of your choice, bill of materials, blueprints, and complete instructions for building a 48 inch throat depth press.
- Punches steel or aluminum up to 16 ga.
- Accepts all MB bench press tooling and up to 5 inch long louver

Complete Louver Punch Kit (with choice of one louver punch set) \$1,905.00
 PowerX 10,000 PSI Air/Hydraulic Pump w/ 20' Hose & Fitting \$683.90

METALACE BULLSEYE PICKS

- Bullseye picks make it easy to accurately repair dents like a professional.
- Return Spring allows you to hit quickly, with the advantage of knowing where the pick will strike.
- Designed for use in hard-to-reach areas such as around braces, gussets and other blind areas.

15" Reach Bullseye Pick \$159.95
25" Reach Bullseye Pick \$169.95

TRICK-TOOLS CURVE TEMPLATES

- These curve templates are commonly used for duplicating complicated contours, ensuring a new part is an exact copy of the old.
- Great for long panels such as hoods, roof skins, fenders, airplane wings, and more

37" Curve Template \$51.99

PICARD HAMMERS AND DOLLIES

- Picard Body Hammers and Dolly Blocks are top tier hand tools built for professional metal shapers and automotive restorers.
- Picard hammer heads are carefully hardened and tempered, while their ring wedge keeps the head firmly attached with no movement over the life of the tool.
- The octagonal hickory wooden handles give a well-balanced, substantial feel, and reduces twist in the hammer that can cause unwanted marks in your panel.
- Precisely made in Germany since 1857

Picard Body Hammer Starting at \$65.98 ea.
Picard Body Hammer and Dolly 10-piece Set (Includes 6 Body Hammers and 3 Dolly Blocks, and 1 Surfacing Spoon) \$629.95

COVELL SLAP HAMMER

- This unique tool is designed by, and is the preferred method, of master metal shaper Ron Covell for smoothing lumpy metal.
- Perfect for metal finishing steel and aluminum and will leave less marking than traditional hammers.
- The high-density foam grip makes it comfortable to use for extended periods.

350-CVL Covell Slap Hammer \$159.95

COVELL ROUND OVER DIES

- Covell Rounding-Over Dies are great for creating a rounded or radiused edge on sheet metal panels.
- Precision machined from heat treated steel, these dies can handle up to 16 gauge mild steel.
- The built-in back stop allows for a smooth and consistent rolled edge, perfect for building tanks and fenders or simply finishing the edge of a part.

5/16", 1/2", 1", and 1-1/2" dies (designed for Pexto 622, adapter sleeves available) \$95.00 ea.
300-CVL Complete Set (designed for Pexto 622, adapter sleeves available) \$359.00
5/16", 1/2", 1", and 1-1/2" Mittler Style Dies (designed for use with Mittler Bros Bead Rollers) ... \$105.00 ea.
400-CVL Complete Mittler Style Set (designed for use with Mittler Bros Bead Rollers) \$449.00

Mittler Style Set

TRUSTY-COOK BOSSING MALLETS

- These dead blow bossing mallets become a favorite for rough-shaping sheet metal before wheeling or planishing.
- Each hammer features an ideal profile for metal shaping, a steel rod handle, and a shot canister encased in a hot cast urethane that resists chipping and marking of the surface.

TCBM1 Dead Blow Bossing Mallet, Small \$50.00
TCBM2 Dead Blow Bossing Mallet, Medium \$55.00
TCBM3 Dead Blow Bossing Mallet, Large \$70.00
TCBM-Kit Dead Blow Bossing Mallet Kit (includes three listed above) SALE! \$148.75

METALACE MALLET & SHOT BAGS

- These high quality bossing mallets are made from a non-marring plastic and are offered in several sizes so you can select a hammer perfectly suited for the job at hand.
- Our selection of shot bags, or sand bags, are made in the USA using a high quality leather and can be filled with #9 lead shot or silica sand.

Small Bossing Mallet (right) \$56.00
Medium Bossing Mallet (left) \$62.00
Large Bossing Mallet (middle) \$74.00
Bossing Mallet Kit (includes three listed above) SALE! \$183.00

METALACE

22B ENGLISH WHEEL

Finance as low as
\$35.00 / Month

- Provides outstanding performance on small jobs like motorcycle tanks, tank covers, seat cowls, and aircraft fillets.
- Use on a bench, clamp in a vise, or use with optional welded stand.
- Capacity of 18 ga. steel and .090 inch soft aluminum
- Throat: 22 inches
- Weight: 80 lbs.

- Anvil yoke has an adjustable axle support so the anvil wheel can be trued to the upper wheel
- Standard working height (from bench): 16-1/2 inches
- Standard working height (with opt stand): 45 inches
- Upper wheel: 8 inch dia. x 2 inch wide 1045 alloy steel billet polished to a high surface finish
- 3.25 inch radius anvil wheel standard
- Made in the U.S.A.

22B Benchtop English Wheel (includes 3.25" R anvil wheel) \$949.00
Discovery Kit (includes 22B, 8.50" R, 3.25" R and flat anvil wheels, plus shot bag, mallet, radius gauge and instruction DVD) \$1,269.00

22B Floor Stand (with die rack) \$230.00

METALACE

30F ENGLISH WHEEL

Finance as low as
\$92.00 / Month

- The Metal Ace 30F English Wheel offers metal shaping capabilities for racing, auto restoration, and aircraft rebuilding needs.
- Has enough muscle to form up to 12 gauge steel
- The retractable handle and casters allow for easy portability
- The 3-leg stance gives a solid base on all floors and utilizes a front-mounted rubber pad for stability.
- Anvil yoke is adjustable on both sides of the axle support so the anvil can be trued to the upper wheel
- Features can be rolled into the center of a 60 inch panel
- Quick release cam on lower anvil
- Includes anvil wheel storage rack
- Upper wheel: 8 inch dia. x 3 inch wide 4140HT alloy steel billet, polished to a high surface finish
- Height: 73" • Width: 42" • Throat: 30" • Weight: approx. 340 lbs.
- Made in the U.S.A.

METALACE

IMPERIAL 44F

Finance as low as
\$266.00 / Month

- Constructed with a massive cast iron frame and featuring an immense 44 inch throat, the 44F Imperial is the toughest English Wheel you can buy.
- Capacity of 16 gauge steel and 1/8 inch soft aluminum
- Throat: 44 inches
- Quick release cam on lower anvil
- Anvil yoke is adjustable on both sides of the axle support so the anvil can be trued to the upper wheel.

- Weight: approx. 1,850 lbs.
- Standard working height: 48.5 inches
- Upper wheel: 8 inch dia. x 3 inch wide 4140HT steel polished to a high surface finish
- Rigid cast iron frame provides a sturdy, vibration-free platform for your job
- Screw lift and upper anvil wheel rotate 90 degrees for larger panels
- Made in the U.S.A.

Imperial 44F English Wheel \$12,000.00
 (includes 3" wide, 2.50", 3.75", 6.0", 12.0", 24.0" and flat radius, anvil wheels)

PROLINE

PLANISHING HAMMERS

Finance as low as
\$94.00 / Month

- Designed for forming or planishing compound curves in sheet metal.
- Used in many industries including automobile and aircraft restoration, and race car fabrication
- An air control valve allows for fine tuning of power output and an automatic air cutoff switch shuts air off to the motor when the foot pedal is up.
- Includes upper die and 3, 12, and 36 inch radii bottom dies
- Uses CP style tooling
- These hammers are built with uncompromised quality and are completely made in the USA.

24"

22" Portable Planishing Hammer \$4,995.00
24" Cast Iron Floor Model Planishing Hammer \$8,500.00
36" Cast Iron Floor Model Planishing Hammer \$12,500.00

PROLINE

HAND HELD HAMMERS

- Excellent for auto body work without taking the panel off the vehicle.
- Can be used with or without the yokes.
- Uses CP style tooling

- Includes upper die and 3 lower radius dies: 3R, 12R, and 36R
- Can save hours of time versus traditional hammer and dolly forming.

ProLine Hand-Held Cast Aluminum Planishing Hammer (11-1/2 inch throat) \$2,995.00
ProLine Hand-Held Tubular Yoke Planishing Hammer (22-3/4 inch throat) \$2,995.00

11-1/2"

MECHHAMMER PLANISHING HAMMER

- Mechhammer call it their 'set it and forget it' machine. Tooling automatically adjusts for varying material thicknesses.
- Unlike other traditional planishers, the dies do not clamp the material. This gives the operator ultimate control when maneuvering the panel. The dies simply rest on the material.
- The unique electric motor and clutch drive system allows for extreme control of power for shaping consistency
- Interchangeable pistons can be exchanged for heavier or lighter impact on the material.
- The straight lower arm is used for tight clearance areas.
- Die sets are available for a variety of tasks such as planishing, beading, shaping, flanging and tipping. Other specialty anvils are offered as well.

- Variable speed up to 3000 bpm
- Mild steel capacity: 16 gauge
- 110v electric motor
- Throat Height: 22 inches
- Throat Depth: 20 inches
- Made in the USA

Mechhammer Mark II Planishing Hammer (includes 40mm flat upper die, 3R, 12R, and 36R lower dies) **\$6,595.00**
Mechhammer Mark II Planishing Hammer Deluxe Kit (includes every available die set, see website for complete list) **SALE!** **\$11,495.00**
Hammer Weight Set (includes heavy, light, and x-light weights for different material and thickness) **\$200.00**
Thumbnail Shrinking Die Set **\$495.00**
Planishing Die Kit, 14 Piece (completes the set of all standard planishing dies, included sizes listed below) **SALE!** **\$923.00**
(Includes two reverse curve upper dies, 5/8, 3/4, 7/8, 1, 1-1/4, 1-1/2, 2, 4, 6, 24, 40 inch radius dies, and flat lower dies)

PROLINE POWER HAMMER

- The ProLine Mini-Max does the work of a large and expensive Pullmax machine without the large footprint.
- The heavy-duty fabricated frame features an 18 inch throat and a 16 gauge mild steel capacity.
- MiniMAX operates in a fixed stroke reciprocating action, similar to the Pullmax machine, and accepts 16mm square shank Pullmax style tooling for shrinking, beading, doming, edge setting, planishing, and more.
- The rolling base allows for use anywhere in the shop and offers slots to store all 16mm tooling
- It's variable speed 110v, 3/4 hp motor has a max RPM of 1,150 strokes per minute and runs off a variable speed foot pedal for slow or fast shaping, freeing both hands for material control.
- Quick release lever separates tooling for easy material removal and tooling change-out.
- The included straight and rolling contour fences can be adjusted for depth and height.

- 1 year warranty
- Made in the USA
- Weight: 360 lbs
- Dimensions (in): 34 x 29 x 70

Mini-Max Variable Speed Power Hammer **\$7,500.00**
Mini-Max Deluxe Power Hammer SALE! **\$8,990.00**
(Deluxe Kit includes rolling stand and thumbnail shrinking dies)

MITTLER BROS POWER HAMMER

- This power hammer by Mittler Bros. is built to replicate a 60 lb Yoder Power Hammer.
- The Mittler Power Hammer utilizes a leather strap & leaf spring to support the upper die assembly which provides a cushioned blow similar to a mallet and shot bag only at a rate of 900 blows per minute.
- The upper die stroke is adjustable to compensate for heavier or more delicate work.
- The machine also features a 26 inch throat, quick release adjustment handles, and a quick change tooling system.
- Optional die sets available for shrinking, stretching, and shaping in sheet metal.

Power Hammer Kit (includes component kit, flat upper die, and your choice of bottom die) **\$4,065.00**
Single Head Power Hammer (includes flat upper die and your choice of bottom die) **\$10,885.00**
Dual Head Power Hammer (includes tooling package) **\$18,345.00**
Optional Tooling Package (includes Shrink, Stretch, Soft, and 4, 6, 12, 24 inch Radius Dies) **\$3,160.00**

MH-19

BAILEIGH POWER HAMMERS

- The Baileigh MH-19 and MH-37HD Power Hammers are designed to perform the functions of a rigid Pullmax machine and a slapping Yoder power hammer. The MH-19 also has an optional English wheel accessory.
- Their 220v single phase motor features an inverter drive that adjusts from 0-1500 beats per minute and the speed can be constantly adjusted through the variable speed foot pedal or locked to a fixed speed using the control panel.
- When operating in rigid mode, there is a fixed gap between dies that can be adjusted on the fly and is popular for thumbnail shrinking, stretching, flanging, beading, offsetting, and louvers.
- Spring mode allows dies to slap together giving a hammering effect popular for doming and planishing applications.
- Made in the U.S.A.

MH-37HD

ECKOLD KRAFTFORMER

- The Eckold Kraftformer metal forming machines are powerful, reliable, and precision machines built for decades of use and have huge forming capacities!
- These machines can be used multifunctionally, with optional tooling available for shrinking, stretching, doming, flattening, planishing, edging, notching, punching, and straightening.
- Finely tune the forming capacity and stroke frequency for both rough forming and precision work.
- The KF 170 PD has a continuous stroke frequency, however it can be switched to a single stroke for precise correcting and adjusting of parts.
- KF-324 and KF-340 heads adjusts from 0-15° for comfortable work height
- KF-470 and KF-675 are servo motor driven machines designed to work with heavy material up to 6 mm (1/4") and feature an electronic display capable of storing programs for repeatable results.
- Tooling sold separately. Machines FOB Switzerland.

ROPER-WHITNEY HAND PUNCHES

- These hand punches by Roper Whitney can save a lot of time over drilling sheet metal and are much more accurate.
- The 5 Jr punch has a standard 1-3/4" throat depth, while the XX has a deep throat configuration to punch up to 3-1/4" from the edge with up to an 1-3/8" flange.
- 1.2 tons of punching power
- XX kit includes: 5/32", 7/32", 9/32", 11/32", 13/32", 15/32", and 17/32" round punch and die
- Optional bench mount base available
- 5 Jr kit includes: 3/32", 1/8", 5/32", 3/16", 7/32", 1/4", and 9/32" punch and die

5 Jr Hand Punch Kit	\$140.00
5 Jr Bench Mounting Base (not included with kit)	\$48.00
XX Hand Punch Kit	\$340.00
XX Bench Mounting Base (not included with kit)	\$59.00

ROPER-WHITNEY MEDIUM DUTY PUNCHES

- These Roper Whitney heavy duty punches are highly portable and will fit any tool chest.
- The leverage design of these tools assures easy linear operation.
 - Two hand linear operation
 - Throat Depth: 1.625"
 - Throat Height: .313"
 - Weight: 17.5 lbs
- No. 7A punch and dies: 1/16" - 7/16"
- No. 8 punch and dies: 1/16" - 1/2"

No. 7A Punch 2.5 ton capacity)	\$398.00
No. 8 Punch (5 ton capacity)	\$536.00
No. 7A and 8 Mounting Bases	\$165.00
No. 7A and 8 Punch Dies	\$38.00 ea.

ROPER-WHITNEY BENCH PUNCHES

- The Roper Whitney bench punches feature a heavy duty steel frame and are designed to be mounted to a sturdy work bench.
- The No. 16 punch is able to deliver up to 7.3 tons of punching power, while the No. 17 punch is able to generate up to 5 tons of pressure, enough to punch a 1/2 inch hole in 1/8 inch mild steel.
- The die shoe on both tools are adjustable to permit the proper alignment of punches and dies for punching thin sheet metal.

No. 16 Punch (7.3 ton capacity, 3.25" throat depth, 1.75" throat height)	\$663.00
No. 17 Punch (5 ton capacity, 6.5" throat depth, 2.125" throat height)	\$795.00
No. 16 and 17 Punch Dies	Starting at \$54.00 ea.

HOUGEN PORTABLE PUNCH

- The Hougen-Ogura Portable Punch is an electro-hydraulic hole punch with a lightweight single body construction that eliminates the need for external hydraulic pumps and lines.
- Their exclusive punch and die design reduces the punching tonnage compared to traditional hole punches.
- Punch clean and accurate holes with fast cycle times in as little as 2.5 seconds.
- Punch flat bar, channel, H-steel, angle, and more!
- Great for use on the job site or in the shop. See our website for the best model for your application!

76000PR, Cordless Portable Punch, 11 ton (0.98" throat depth, 0.28" throat height)	\$3,236.75
75004PR, Portable Punch, 16.9 ton (1.5625" throat depth, 0.39" throat height)	\$4,237.20
75006PR, Portable Punch, 26.9 ton (1.9688" throat depth, 0.57" throat height)	\$6,473.50

HOUGEN SHEET METAL CUTTERS

- Hougen sheet metal cutters easily outperform standard hole saws by cutting a more accurate hole up to three times faster with far superior tool life.
- These precision ground, heat treated cutters can be used in a hand drill or drill press and will leave a smooth finish with minimal material deformation.
- All sizes can drill up to 1/8 inch thick material and have a "shoulder" to prevent plunge-through.
- Made in the U.S.A

Individual Holcutter Sizes (sizes range from 11/16" - 3")	Starting at: \$17.44
14005 Holcutter Kit (includes 7/8", 1-1/8", 1-3/8", 1-3/4", 2" and 2-1/2" w/ arbor, pilot pins, and carrying case) SALE!	\$204.64
14005VS Master Fabricator Set (includes 3/4", 1", 1-1/4", 1-1/2", 1-3/4", 2" and 2-1/2" w/ arbor, pilot pins, and carrying case)	\$249.95

HOUGEN ROTA-CUT HOLE CUTTERS

- Hougen RotaCut Sheet Metal Cutters utilize the same technology as standard cutters but can be used in 3/8 or 1/2 inch chucks and have a maximum depth of cut of 1/2 inch.
- An optional arbor and lower horsepower requirements make these ideal for use in small mills and drill presses.
- A center punch mark is all that is required to locate and start the spring loaded pilot pin.
- Made in the U.S.A.

RotaCut Sheet Metal Hole Cutters, Individual Sizes (Sizes range from 1/4" - 1-1/2")	Starting at: \$8.93
11075 RotaCut Kit (1/4" depth, 5/16", 3/8", 7/16", 1/2" 9/16, 5/8", 3/4" w/ arbor assembly, center punch, and extra pilot pin)	\$86.41
11087 RotaCut Kit (1/2" depth, 5/16" - 1-1/2" cutters w/ two arbors, center punch, and extra pilot pin)	\$295.59

DRILLING JIGS AND GUIDES

- These drilling jigs and guides are designed to allow the user to drill precise holes in tubing, pipe, and round stock using a portable electric hand drill and/or drill press.

CI-1 Center-It Jig (for drill press use, holds round tube and pipe)	\$19.95
Drill-Rite Guide (portable drill use only, fits pipe dimensions: 3/4" - 2-1/2") SALE!	\$79.95
Tube Drilling Combo (includes Center-It Jig and Drill-Rite Guide) SALE!	\$99.95

FLOWDRILL FRICTION DRILLING

- Flowdrill exists to provide an inexpensive, high quality replacement for nut-serts or weld-on nuts and bungs when working with thin wall material.
- Flowdrill is a solid tungsten carbide tool, which uses friction to form material into a cylindrical or cone shape.
- This formed hole can then be tapped and used for O2 or EGT sensor installations, brackets and tabs, sheet metal fastening, etc.
- Flowdrill bits can be used in drill presses and milling machines.

Scan for Video

Flowdrill Starter Kit #1 (1/4", 5/16")	\$820.00
Flowdrill Starter Kit #2 (10-32, 1/4", 5/16", 3/8")	\$1,165.00
Flowdrill Starter Kit for O2 Sensors (Hole Sizes: M18 x 1.5")	\$940.00
Individual sizes (up to 3/4" OD, Up to 20mm)	Starting at \$90.82

FEIN

LOW PROFILE MAG DRILL

- The popular JMC Magforce 90 is packed with features never seen before on compact Magnetic Drills.
- The space-saving design comes in under 7 inches of height and the 3/8 ratchet handle can be fitted to either side of the drill, making it the ideal machine for fitting into the tightest spaces.
- Features include a 1,150w brushless motor, variable speed control, 2,250 lbs of magnetic holding force, and is reversible which separates it from all competitors.
- No special cutters are required as any standard 3/4" shank cutter will work in this drill.
- Great for truck frame drilling and onsite assembly work.

Model No.	Motor	Spindle Speed	Drilling Capacity	Weight	Tapping Capacity	Price
Magforce 90	110V, 1.5 hp	130-520 rpm	1-3/8" - 1-3/8"	18.75	1/2"	\$1,579.95

KN KUT

STEP POINT DRILL BITS

- KnKut Step Point Bits eliminate the need to center punch or drill multiple pilot holes.
- Step point design reduces heat to increase tool life and can be used to enlarge existing holes without damaging the point.
- Bits also include 3 flats on 3/16 and larger to help eliminate chuck slippage
- Made in the USA and great for use on hard steel, brass, sheet metal, and acrylics.

KnKut 29 piece Step Point Drill Bit Set, Mechanics Length (1/16 - 1/2") SALE! \$279.99
KnKut 4 piece Step Point Drill Bit Set (1/2" shank, 9/16 - 1") SALE! \$202.81
KnKut 8 piece Step Point Drill Bit Set (1/2" shank, 9/16 - 1") SALE! \$444.74

ELLIS

9400 DRILL PRESS

Finance as low as \$111.00 / Month

- The Ellis drill press is one of the most versatile drill presses available.
- Comes standard with power down-feed, infinitely variable speed operation, instantaneous reverse for tapping, and a T-slotted table and base; its value is unsurpassed.
- This extremely durable drill press features a 4 inch diameter column, 3 inch diameter quill, and a 2 hp motor.

Spindle Speeds	Drills to Center	Drilling Capacity	Tapping Capacity	Morse Taper	Spindle Travel	Spindle to Table (max.)	Spindle to Base	Table	Base

DAKE

DRILL PRESSES

- Dake drill presses are designed for drilling in metal and can be used for a variety of jobs such as tube notching, boring with annular cutters, or forming with our Flowdrill system.
- Variable speed models are powered by a step pulley system or an inverter drive for infinite rpm adjustments.
- The heavy duty column reduces flex while the machined t-slots in the table and base allow for mounting and fixturing for a secure hold on your material.

SB-16 Variable Speed Drill Press (110v, Variable Step Pulley) \$2,304.50
TB-16V Bench Model Variable Speed Drill Press (110v, Variable Step Pulley) \$2,634.50

DAKE

CIRCULAR COLD SAWS

Finance as low as \$113.00 / Month

- Head rotates 45 degrees right and left of center for miter cutting and the 350 model rotates to 90 degrees for slotting
- Oversized spindle and gear assembly with steel spindle and bronze gear
- Additional ball bearing support of hardened and ground spindle shaft to prevent failure.
- Cam activated vise with gib adjustment and anti-burr arm
- Reliable mechanical coolant pump with flow control adjustment
- 315 & 350 models feature 24v control circuit, E-stop switch, low voltage and thermal protection, and optional pneumatic vise.
- 350 model features an adjustable safety clutch to eliminate blade breakage.
- All the Dake saws come with a pedestal, blade, tool kit, coolant, adjustable stop, and service manual.
- 1 year manufacturer's warranty

SCOTCHMAN

CIRCULAR COLD SAWS

Finance as low as \$266.00 / Month

- Scotchman Cold Saws provide clean, straight, burr-free cuts, easy miter cuts, and safe operation without sparks or heat.
- Head rotates 45 degrees right/left for miter cuts
- Slotting operations can be performed with a head that will rotate up to 90 degrees.
- Miter locking pins at 45 degrees left and right provide fast angle selection
- 7 gallon coolant tank with pump
- Emergency stop button is equipped for operator safety.
- These rugged machines are made to last with hardened and ground bronze gears to provide years of trouble-free service.
- PKPD Series features an air-operated clamp for material vise
- PKPD Series utilizes a pneumatic power down feed with electric controls
- PKPD Series uses separate feed controls for rate and pressure
- 3 year manufacturer's warranty

EVOLUTION TCT CHOP SAW

S15CPS

- Evolution saws utilize tungsten carbide tooth blades (TCT blades) for fast and clean cutting of steel, aluminum, stainless, and more.
- TCT chop saws are more economical than abrasive chop saws due to the long blade life and are much cleaner and safer than other cutting methods.
- The 110v motor spins at a lower speed and higher torque than traditional abrasive saws.
- The S14MCS model features a dual mitering head, while other models have a 45° mitering vise.

S14MCS

EVOMAX S14CPS TCT Chop Saw (14 inch blade) \$500.00
EVOMAX S15CPS TCT Chop Saw (accepts 15 inch TCT Blade) \$600.00
EVOMAX S14MCS TCT Chop Saw (14 inch blade, mitering head) \$1,000.00

FEIN TCT CIRCULAR SAWS

AHKS 18-57

- The Fein Slugger Metal Cutting Saws cut through almost any type of material effortlessly.
- Lightweight, only 14 or 20 lbs, depending on model
- Cutting depth from 2 or 3-1/4 inches, depending on model
- Overload switch
- Spindle lock for fast easy blade changes
- Features a heavy-duty oil bath worm gear drive
- 45 degree beveling ability

PORTABAND PRO PORTA-BAND JIG

- The Portaband Pro allows you to use your Milwaukee® or DeWalt® Porta-band as three tools in one! Use as a standard porta-band, chop saw, or even a vertical bandsaw with the optional vertical table accessory.
- Adjustable fence pivots up to 60° for miter cuts for cutting tubing, bar stock, PVC pipe, conduit, and more.
- Quick-release gas shock holds the saw in the upright position when used as a chop saw and disconnects with no tools to allow use as a vertical saw.
- A Keyhole slot gives you the ability to add our optional material clamp to hold your work piece while cutting, eliminating the need to manually hold your work piece.
- Milwaukee Jig works with Milwaukee® models 6232, 6238, and 2729 models only.
- DeWalt Jig works with the DeWalt® DWM120 model only.
- A great solution for the job site, weekend fabricator, or those looking to maximize their porta-band.
- Made in the U.S.A.

 Wall/Vertical Mount Receiver Only \$69.95
 Vise and Grinder Plate for Receiver Mount \$69.95

SWIVEL PLATE MOUNTS

- Vise/Grinder plate accepts a variety of Wilton vises and many bench grinder motors.
- Universal mounting plate (UMP) works directly with Lancaster Shrinker/Stretchers, Beverly Shears, Roper Whitney Punches, and much more!
- The plate swivels easily with the quick-release handle and allows for repositioning tools to any desired angle.
- Additional swivel blocks can be purchased to change out tools in one mount quickly.
- Choose from Table or Wall Mount • Made in the U.S.A.

RM4-GV-Combo, Swiveling Vise/Grinder Plate (add \$20.00 for wall mount) . . . \$184.95
 RM4-UMP-Combo, Swiveling Universal Plate (add \$20.00 for wall mount) . . . \$199.95

VERSA-MOUNT

MOBILE VISE & GRINDER PED

- Versa-Mount Mobile Pedestals eliminate the need to bolt tools to the floor and can be moved closer to your project or out of the way when not in use.
- Mobile Base bolts directly to Versa-Mount's Vise and Grinder pedestal and Universal mounting plate pedestal for a mobile solution to a variety of tools
- Mobile Base features a heavy steel construction with bracing as well as rubber pads on all corners for a stable platform to stand on while operating.
- This heavy-duty stand is built with a 1/2 inch thick base plate and 3/8 inch thick top mounting plate, with a 2-1/2 inch square upright and black powder coat finish.
- Ped-GV features pre-cut mounting slots to fit a variety of bolt patterns for vises and bench grinders.

BADASS FABRICATION TABLES

- Badass Welding & Fabrication Tables are rock-solid and built with durability in mind.
- These tables feature a 1/2 inch thick steel top, beefy 4x4 legs, heavy duty welded frame, and a storage rack underneath.
- The two built-in receivers (4 on select models) accept the Versa-Mount tool mounting system to free up valuable tabletop and floor space.
- Standard tables come equipped with leveling feet, however optional heavy-duty casters, rated at 1200 lbs each, are available.
- Each table stands 36" tall and features a 4800 lb capacity.
- Call our Solution Specialists for customization options and pricing.

BADASS STORAGE CABINETS

Finance as low as
\$30.00 / Month

- Heavy-duty storage cabinets are made in the USA and are built to last a lifetime
 - Built from 18 gauge galvanized steel, these cabinets are extremely rigid and the fixed shelves can hold up to 375 lbs each!
 - Galvanized finish is durable and will protect from corrosion.
 - The built-in can rack and small parts organizer maximizes space and provides easy access to commonly used items.
 - Great for fabrication shops, maintenance departments, body shops and more!
- Key lockable door latches
 - Weight: 350 lbs
 - Riveted stiffener channels on doors
 - Height: 80 inches
 - Three heavy-duty hinges per door
 - Depth: 22 inches

Badass Industrial Steel Storage Cabinet (36" wide, 250 lbs)	\$1,390.00

FLEXTUR WORKSTATIONS

- Flextur Workstations are USA-made industrial grade modular work stations that allow for efficiency and adaptability in your workspace.
 - Customize the layout of your workstation and adapt your production area as your needs change, keeping tools easily accessible for your immediate task.
 - The Gridlock™ system features a patented slot design and promotes LEAN and well organized workspaces.
 - The rolling design with locking casters keeps your tools easily within reach and allows for use of both sides of the work station.
 - Great for work cells, production lines, or tight workshops
 - Optional accessories include hooks, bins, can holders, shelving and more!
- Powder coated 14 gauge panel construction
 - Maximum Capacity: 900 lbs
 - Dimensions (LxWxH): 32 x 35 x 78
 - All accessories sold separately

BEND-TECH TUBE BENDING SOFTWARE

- Bend-Tech offers tube bending software solutions for everyone from hobbyists to the professional fabricator.
- Using the finished part dimensions, this software calculates how long to cut your tube as well as where to start each bend regardless of your bender type, saving you hours of calculating and reduce wasted material.
- Each version contains several common templates for nearly any application.

- With Bend-Tech SE, users have the option of sketch mode for drawing custom parts as well as X, Y, Z dimensional input.
- You can even view and rotate a three dimensional model of the finished part and watch a simulation of how it will bend on your specific bender.

HAND BENDER

Deluxe Hand Bender Kit

Scan for Video

- The HB1 features heavy duty steel construction for bending custom fuel, brake or hydraulic lines or even small diameter chassis tubing up to 5/8 inch OD.
- Quick setup and simple operation make this bender the right choice for light production, repair, and prototype work.
- Each standard die set is reversible for bending three-times or five-times the diameter of the tube radii and the adjustable bend die allows for easy repositioning and removal of the tube.

- Rugged CNC machined steel construction
- Replaceable parts for long service life
- 3D and 5D bends from each die set
- Adjustable bend die on lead screw
- Close bend-to-bend distances
- Simple set up and operation
- Pedestal or vice mount

MITTLER BROS.

SMALL DIAMETER TUBE BENDER

- The Mittler Bros 950 Manual tubing bender is made in the USA and is a great solution for small tubing applications from 3/8 inch to 1 inch OD x .095 inch wall.
- Popular for bending safety loops, fuel lines, hydraulic lines, and even 4130 chromoly.
- Dies are available in round and square profiles and can bend up to 180 degrees.
- Its compact design allows for easy mounting in your vise and packs away tightly in your tool box.
- This bender includes a degree ring for tracking bend angle for repeat bends.

BAILEIGH RDB-125 TUBE BENDER

Finance as low as
\$129.00 / Month

- The RDB-125 is an entry level Baileigh/RMD bender with a large bending capacity.
- Capable of bending 180 degrees without repositioning the tooling
- Machine features electric/hydraulic power and a dual-acting cylinder for powered returns.
- Cylinder can be reset and re-stroked using the foot pedal control.
- Quick release counter bend die allows for easy positioning/removal of the material.
- Using industrial grade hydraulics and heavy steel construction, this machine is built to withstand tough industrial jobs.
- Dies are sold separately and available for round and square tubing as well as nominal pipe sizes.
- Made in the U.S.A.

- 2-1/2" round .120" wall mild steel capacity
- 2" round .120" wall chrome moly capacity
- 2" schedule 40 pipe capacity
- 2" square .125" wall mild steel capacity
- 10.5" CLR maximum
- 110v

BAILEIGH RDB-175 TUBE BENDER

Finance as low as
\$199.00 / Month

- The RDB-175 tube and pipe bender features a new programmable bend interface, foot pedal controls, quick tooling changes, and a large 2-1/2 inch OD bending capacity.
- The RDB-175 is very fast; with a unique dual hydraulic ram design, it can make 180 degree bends in as little as 12 seconds.
- With tooling available for round, pipe, and square materials the RDB-175 is one of the most flexible, fast, and repeatable benders on the market today.
- It also features a quick release counter-bend die for easy positioning/removal of the tubing.
- The included auto-stop can easily be set to increase bend accuracy and part consistency.

- 2-1/2" round .125" wall mild steel capacity
- 9" CLR maximum
- 2" schedule 40 pipe capacity
- Dies are sold separately
- 2" round .120" wall chrome moly capacity
- 110v
- 2" square .125" wall mild steel capacity
- Made in the U.S.A.

BAILEIGH RDB-250 TUBE BENDER

- The RDB-250 tubing bender is a programmable control machine that allows up to 170 programs with 10 bends per program.
- All bend data, including bend angle, speed, and quantities, as well as length and rotational stops can be stored in the memory.
- Optional indexing tables give repeatability for both rotation points and length measurements between bends.
- This rotary draw tube bender can bend at speeds up to 9 seconds for a 180 degree bend and can be programmed to bend up to 360 degrees, great for solid rod applications.
- The counter die positioner has a numerical counter so repositioning of the counter die is a breeze when recalling bend programs.
- Dies are sold separately and available for round and square tubing as well as nominal pipe sizes.
- Made in the U.S.A.

- 2-1/2" OD .120" wall mild steel capacity
- 2" square .120" wall mild steel capacity
- 2" schedule 40 pipe capacity
- On casters for portability

SWAG OFFROAD

MANUAL ROLL BENDER

- The Swag Offroad Hulk Manual Roll Bender is a high-quality made in the USA product with dies available for round and square tubing, round pipe, flat stock, and more!
- Delrin dies are also available for aluminum, copper, brass, and chrome finishes to reduce abrasion or scratches on the material.
- Bender frame is made from 1/4-inch thick plate and the axles are 4340 heat-treated Chromoly
- A digital readout gauge is included for part consistency and repeatability
- Uses 2-ton bottle jack for roll adjustment
 - Mild Steel Capacity: 2-1/2" x .120"
 - Nominal PIPE Capacity: 2" Schedule 40
 - Square Mild Steel Capacity: 2" x .125"
 - Minimum OD: 1/4"
 - Max Degree of Bend: 360°

EAGLE

POWERED ROLL BENDERS

- Roll Benders are used for bending tube, angle, or shapes into coils, circles or large arcs using a wide variety of materials.
- Simply adjusting the third roll changes the size of the arc or circle.
- A digital read out allows repeatability for production runs and machines come complete with a universal roll set allowing you to build the correct size die for your material.
- Tube sizes require specific rolls for each OD and we have rolls for any application including CNC controlled. Please call for special applications.
- These benders are great for handrail applications, race car bumpers, and ornamental iron work.
- Lower rolls knurled for optimal traction
- Manual or hydraulic adjustment of top roll
- Rugged frame and heavy-duty wide base
- Hardened steel shafts
- Horizontal or vertical operation options
- Drive components supported in roller bearings
- Heavy duty adjustable lateral material guides
- Compact, low maintenance design
- Hardened universal standard rolls
- Motor overload protection

HUTH

EXHAUST BENDERS

- Huth benders provide a fast and versatile option for ram bending tubing, pipe and square and are popular with exhaust shops, as well as industrial applications.
- The HB-10 is Huth's entry level bender, designed to introduce you to Huth quality while showing you incredible profit potential with its standard features.
- Included in the HB-10 package is the model 1600 bender, and tooling for bending and creating joints for exhaust tubing from 1-1/2 to 3 inch OD.
- Not only is this machine capable of bending up to 3 inch OD material, but it can also expand and reduce tubing, and form exhaust ball joints and slip joints.
- 220v, 1ph or 3ph power options
- Available tooling packages
- Industrial quality
- Expander/Swager included
- The Huth 2600 industrial duty bender is the most powerful bender of its kind and is designed for large diameter or heavy wall applications that cannot be done on conventional machines.
- It offers a knee pedal control, 7.5 hp unit - enough to provide 85,000 lbs of bending force, and a compact control panel.

HUTH

FABRICATION BENDER

- The Huth fabrication benders are perfect for the manufacturer looking for a heavy duty machine able to run for multiple shifts.
- Great for structures such as carports, green houses or picnic tables and is versatile enough to bend round tubing, square or rectangle as well as flat bar
- The Smart Automatic Mode features an adjustable return-to-home position control along with a precise and easy to read depth of bend gauge that increases efficiency and ensures fast and easy transitions between multiple bends.

Model	Bending Force	Round Tube Max.	Square Tube Max.	Nominal Pipe Max.
HB2650	58,000 lbs	3" OD x .083"	2-1/2" x .073"	1-1/2" x Sch. 40
HB2660	85,000 lbs	3"OD x .120"	3" x .073"	2-1/2" x Sch. 40

HB2650 Fabrication Bender (less tooling, 220v 1ph or 3ph) **SALE!** **\$17,881.38**
HB2660 Fabrication Bender (less tooling, 220v 1ph or 3ph) **SALE!** **\$18,783.88**

BAILEIGH

MANDREL BENDER

- This square and rectangle mandrel bender is perfect for doing custom chassis and frame rail work.
- The MB-4x2 is capable of bending 100 degrees and can make a 90 degree bend in less than 10 seconds.
- Timed mandrel withdrawal helps increase the quality of bends
- Features a fully programmable computer and USB port for external storage
- A wide variety of tooling is available for square and rectangle (easy and hard way).
- Repeatability control for consistent parts
- Motor: 5hp, 220v, 3ph
- Weight: 3500 lbs
- 3" x 3" x 11 ga square capacity
- 2" x 4" x 11 ga rectangle capacity (hard way)

Baileigh MB-4x2 Square & Rectangle Mandrel Bender (mandrel table and tooling sold separately) **SALE!** **\$62,999.00**

TRANSFLUID MANDREL BENDERS

- The German made K Series mandrel benders are the highest quality design and built with space and portability in mind.
- These machines offer hydraulic muscle with digital accuracy, offering a tolerance of +/- .1 degree.
- With capacity up to 4 inch stainless and bend radii as tight as 1.5 x diameter in their standard configuration, these machines are as versatile as they are economical.
- Standard features include mandrel lubrication, 500 part storage, and a SPS touch screen control.
- Optional length and rotational stops with plane of bend device is available for increased accuracy.
- Please call our expert sales staff with all of your bending needs.

DB 2076K

- Bends up to 3" OD x .109" wall thickness mild steel tubing
- Stainless steel tubing up to 3" OD x .065" wall thickness
- Bending angle up to 180.0 degrees plus 10.0 degrees of spring back
- Bending head speed 0.0-90.0: 8 seconds
- Standard load length: 10 feet (extensions available)
- Minimum centerline radius: 1.5D
- Maximum centerline radius: 6 inches (extensions available)
- Manual or semi-automatic operation
- Includes boosted pressure die and controlled mandrel withdrawal
- Machine weight: approx. 2,200 lbs
- Great for automotive exhaust and headers

Prices start at \$98,840.00

DB 2076K

DB 20101K

- Bends up to 4" OD x 0.134" wall thickness mild steel tubing
- Stainless steel tubing up to 4" x .078" wall thickness
- Bending angle up to 180.0 degrees plus 10.0 degrees of spring back
- Bending head speed: 0.0-90.0: 9 seconds
- Standard load length: 10 feet
- Minimum centerline radius: 1.5D (optional boosted pressure die for <1.5D)
- Maximum centerline radius: 7 inches
- Manual or semi-automatic operation (with optional SPS control)
- Removable shaft for small bend radius
- Machine weight: approx. 5,500 lbs.

Prices start at \$154,660.00

DB 2060-3A

DB 2060-3A-CNC

- Bends up to 3" OD x 0.120" wall thickness mild steel tubing
- Stainless steel tubing up to 2-3/8" x .120" wall thickness
- Bending angle up to 180.0 degrees plus 10.0 degrees of spring back
- Bending head speed: 35° per second
- Standard load length: 15 feet
- Minimum centerline radius: 1.5D
- Maximum centerline radius: 6 inches
- Machine weight: approx. 11,500 lbs.

Prices start at \$246,020.00

BEAD FORM FOR TUBING

- Bead Form quickly forms pressure hose beads on all types of tubing and is great for fuel and radiator lines.
- Works on steel, aluminum, copper, or brass
- The hand crank can be removed and replaced with a ratchet and 1/4 inch square socket and can be vice or bench mounted with the included bracket.
- Bead Form also comes in its very own carrying case
- Electric upgrade option is available

- Bead Form Jr** (5/16"-1/2" OD, designed for .028" wall tubing, produces a bead approximately .025" tall)\$559.00
- Bead Form I HD** (5/8"-2" OD, designed for .050" wall tubing, produces a bead approx. .050" tall x .185" wide)\$589.00
- Bead Form II HD** (7/8"-4" OD, designed for .050" wall tubing, produces a bead approx. .080" tall x .270" wide)\$589.00
- Bead Form III HD** (7/8"-4" OD, designed for .065" wall tubing, produces a bead approx. .080" tall x .270" wide)\$599.00

BEAD FORM ELECTRIC

Finance as low as \$45.00 / Month

HUTH EXPANDER/SWAGER

Finance as low as \$114.00 / Month

- Tubing expanding capacity is from 1 inch up to 5-1/2 inch ID
- Tube swaging, reducing, and flaring capacity is up to 3 inch OD
- Includes collet holder for 1 inch up to 2-1/2 inch OD tubing, and adjustable collar for expanding 1 inch to 3-1/2 inch tube
- Powerful 5 hp motor, 220v 1ph (30 amp), or 3ph (20 amp)
- Portable design includes heavy duty wheels and front swivel caster with brake
- Great for end forming mild steel, aluminum, stainless steel, black pipe, and tubing
- This tubing expander / steel pipe reducer has 25,000 lbs. of expanding power
- Automatic preset expanding system allows precise expanding every time
- Made in the U.S.A.

1673 Expander/Reducer/Swager\$7,500.73

HUTH MITEY MATE JR.

- The Mitey Mate Jr is an air powered offspring of Huth's larger 1673 expanding unit.
- Operates off 80-120 psi of shop air and will produce 17,000 lbs of expanding force.
- Expanding tubing is easy with Huth's Accu-Sizer system, for perfect expansions every time.
- Includes tooling to expand 1-1/2 inch to 3 inch .065 inch tubing.

Mitey Mate Jr Portable Expander\$2,132.28

PIPEMASTER

CONTOUR GAUGES

- PipeMasters are the perfect companion to any of our notchers and will easily pay for themselves when fitting tube or pipe together.
- The steel pins contour to the shape desired which can be transferred to the work piece.
- Individual sizes will slip over the tube with a .020 inch clearance or can be used free hand.
- These time savers take away the stress of making complicated notches for your tubular project.

PRO-TOOLS

TUBING NOTCHER

- Built around a heavy duty 1/2 inch thick aluminum base plate with a 1 inch diameter shaft supported on sealed ball bearings, this is one heavy-duty notcher!
- This Pro-Tools notcher will handle 3/4 inch through 2 inch diameter tubing at angles up to 60 degrees and uses regular bi-metal hole saws.
- The HSN-501i can be used in a drill press or attached to a table and used with a standard 1/2 inch drive hand drill.
- This tube and pipe notcher also has an adjustable vise for offset notches.

N-501 Hole Saw Tube Notcher \$389.99

JMR

TUBING NOTCHER

- JMR Tubing and Pipe Notchers are the highest quality hole saw notcher on the market.
- These U.S.A. made notchers feature a 210 degree range of notch and offset capabilities up to 1 inch, allowing the fabricator to make a wide variety of notches.
- The TN300 frame is constructed from CNC machined billet aluminum with heavy 1 inch thick arms, while the 1 inch thick hardened shaft is supported by sealed needle bearings.

- The TN1000 is manufactured from bar stock for increased strength and it's 1.125 inch induction hardened shaft is supported by sealed needle bearings housed in an easily adjustable and replaceable cartridge.
- JMR Notchers can be clamped on an existing tube / pipe structure to bore holes
- Double V-clamp vise allows square to be held flat or on a diamond.

TN300 RaceLine Tubing Notcher (3 inch OD capacity) \$395.00
TN1000 Tubing Notcher (2-1/2 inch OD capacity) \$795.00
Vise Mounting Block for JMR Notchers \$19.99

BAILEIGH

TUBING NOTCHER

TN-250 Tubing Notcher SALE! \$881.99
TN-250 Tubing Notcher Deluxe Kit (includes floor pedestal, hole saw kit, and notching lube) SALE! \$1,091.89

- The TN-250 tubing notcher is one of the most versatile hole saw notchers on the market today.
- The unique radial vise clamping system allows for clamping tubing from 1/2 to 2-1/2 inch OD in any location, including the center of a bend.
- Hole saws are supported on a massive 1-1/4 inch OD shaft, which also includes a replaceable hex insert for attaching to a standard 1/2 inch drive drill.
- Sealed needle bearing shaft supports allow for smooth operation
- 1 inch offset notches can be performed by raising or lowering the cutter assembly.
- Bolt or clamp it to a table or simply clamp it in a vise
- 230 degree of angle adjustment

BAILEIGH

TUBING NOTCHER

TN-300 Hole Saw Tube Notcher SALE! \$3,469.00

- The Baileigh TN-300 tubing notcher is an industrial-quality hole saw coping machine.
- Vise allows for offset coping up to 1-1/2 inches and features a quick release taper lock system for easy adjustment of the cut angle.
- Capable of notching 5/8 inch through 3 inch tubing with a maximum notch angle of 220 degrees
- With a 110 volt, .5 hp motor, and oil filled gearbox, this rugged combo is built for years of use.

MITTLER BROS.

HYDRAULIC NOTCHERS

100-U-MB

- The Mittler Brothers Hydraulic Tube Notchers are precision-machined units based on a punch and die design.
- These notchers utilize a 10 ton ram, capable of notching up to 2-3/8 inch OD tubing and 2 inch Schedule 40 pipe.
- These notchers have a maximum notch angle of 90 degrees and can even handle limited angles when necessary.
- Can be used in a bench vice, fixed stand, or stand with wheels
- Produces a perfect, ready-to-weld notch every time and turns out a professional piece again and again.

100-MB

100-MB (2 inch OD capacity, Choice of one die) \$1,395.00
100-U-MB (2-3/8 inch OD capacity, Choice of one die) \$1,695.00

FEIN GX ABRASIVE SYSTEM

- The Grit GX75 Dual Speed Belt Grinder is the basis for the GX module system.
- Featuring a 3 x 79 inch belt, 3 x 16.5 inch grinding surface, and an 8 inch front contact wheel, this grinder offers plenty of grinding space for almost any application.
- Additional modules include abrasive tube notching and centerless grinding

GRIT MODULES

- The Grit GXR radius grinding module is the perfect solution for tube and pipe notching from 5/8 to 3 inches.
- Convert from grinding to notching within minutes (requires 3" x 88-1/2" belt length)
- Standard features include a quick clamping system, traverse carriage, indexed degree table, and depth stop.

- The Grit GXC Centerless Grinding System by Fein can create the perfect surface finish on round tubing, with a very simple operation.
- The GXC features high process speeds along with an infinitely adjustable feed rate of the material.
- A variety of abrasives are available to achieve the right finish whether you are removing mill scale or creating a satin finish on stainless handrail.
- Two types of rail guides are included, brass for rough surfaces, and nylon for more delicate finishes.

GX75 Belt Grinder (220v 3ph, add \$906.00 for 440v 3ph 2 speed) **\$3,225.00**
GXR Pipe Notching Module **\$2,450.00**
GXC Centerless Grinding Module **\$2,763.00**
3 x 79" Belts (10 Pack)..... **Starting at: \$138.69**

FEIN GI ABRASIVE SYSTEM

- The Grit GI150 is the ultimate workhorse for your industrial grinding needs.
- Featuring a 6 x 79 inch belt, 6 x 18 inch grinding surface, and an 8 inch front contact wheel, this grinder offers plenty of grinding space for almost any application.
- Additional modules include abrasive tube notching and centerless grinding

- Belt Speed: Single Speed = 7400 SFPM
- Belt Speed: Two Speed = 3700 / 7400 SFPM
- 5hp motor
- RPM: 1730 / 3450

GRIT MODULES

- The Grit GIR notching module is the perfect solution for tube and pipe notching from 3/4 to 6 inches.
- Convert from grinding to notching within minutes (requires 6 x 89" belt length)
- Standard features include a quick clamping system, traverse carriage, indexed degree table, and depth stop.

- The Grit GIC Centerless Grinding System by Fein can create the perfect surface finish on round tubing, with a very simple operation.
- The GIC features high process speeds along with an infinitely adjustable feed rate of the material from 0 to 6.5 ft/min.
- A variety of abrasives are available to achieve the right finish whether you are removing mill scale or creating a satin finish on stainless handrail.
- Two types of rail guides are included, brass for rough surfaces, and nylon for more delicate finishes.

GI150 Belt Grinder (440v 3ph, add \$385 for 220v 3ph 2 speed) **SALE!** **\$5,234.00**
GIR Pipe Notching Module **\$4,710.00**
GIC Centerless Grinding Module **SALE!** **\$5,379.00**
6 x 79" Belts (10 Pack)..... **Starting at: \$286.00**

SCOTCHMAN ABRASIVE NOTCHER

- Scotchman Abrasive Tube Notchers are fast and cost effective methods to fit tubes together.
- The high speed grinding belt provides a smooth polished surface at any angle from 0 to 60 degrees in tubing from 3/4 inch up to 3 inch OD.
- The guarded belt surface on top is ideal for grinding or deburring.
- Belt life is generally around 100-200 copes per belt depending on material.
- Also features a heavy-duty frame and base construction, tool free belt and mandrel change over, mandrel center-line adjustment, along with two pipe mandrels and two belts.
- 3 year manufacturer's warranty

AL100U-01 Abrasive Notcher (220/440v 3ph, 4hp, add \$865.00 for 220v 1ph) **\$7,295.00**
AL100U-02 Abrasive Notcher w/ Cross Feed Vise (220/440v 3ph, 4hp, add \$865.00 for 220v 1ph) **\$8,295.00**

MITTLER BROS. TUBING NOTCHER

- The MB Ultimate Tubing Notcher has been a favorite in fabrication shops for many years.
- Operation is simple; just clamp your tube in the calibrated swivel vise that allows for accurate and repeatable positioning at any angle. The compound feed table advances tubing into the milling cutter, producing a perfect notch and a perfect fit—every time.
- Extreme angles can be achieved because of the swiveling vise and the finished notch requires very little cleanup or deburring.

Standard Ultimate Tubing Notcher (max capacity 3/4" to 2" tubing, 110v) **\$4,695.00**
Variable Speed Ultimate Tubing Notcher (max capacity 3/4" to 2" tubing, 110v) **\$5,250.00**
Double Sided Variable Speed Ultimate Tubing Notcher (max capacity 3/4" to 2" tubing, 110v) ... **\$6,575.00**
Offset Vise Option (allows offset notching of tubes) **\$345.00**
Upgrade Vise Option (allows notching of tubes up to 2-3/8" OD) **\$345.00**
Ultimate Tubing Notcher Stand (cabinet provides space for safe storage of spare cutters) **\$465.00**
(See website for cutter pricing)

BAILEIGH TUBING NOTCHER

- Create perfect weld joints in chrome moly, mild steel, stainless steel, and aluminum pipe or tubing with outside diameters of 1 to 3 inch.
- Notcher has an operator adjusted eccentric path that requires only one cutter to notch tubing, pipe, or solids from 1 to 3 inch OD.
- Capable of notching up to 60 degrees in either direction.
- Cross slide table, angle vise, and V-Jaws can be independently calibrated allowing accurate positioning of straight, angled, or offset notches.
- Ruggedly built stand with large wheels and casters for easy mobility.
- Made in the U.S.A.

ICENGINEWORKS

HEADER MODELING BLOCKS

- Makes modeling custom headers and turbo manifolds easier
- Piece blocks together and rotate to create a model of your custom header
- Blocks snap together to form header primaries that can be duplicated by cutting and welding commonly available prebent U-bends and J-bends.
- Straight and curved blocks in a variety of radii are included with each kit.
- Each block represents a 1 inch arc length of tubing.
- Simply attach the block adapter to your exhaust flange and start building
- Pro kits have enough blocks to complete a set of headers for an 8-cylinder engine.

1-5/8" Basic Kit (124 pcs)	\$399.99
1-5/8" Pro Kit (248 pcs)	\$699.99
1-3/4" Basic Kit (154 pcs)	\$449.99

ICENGINEWORKS

TURBO MANIFOLD MODELING BLOCKS

- Makes modeling and fabricating custom turbo manifolds quicker and easier
- Blocks come in straight and a variety of center line radii and degree to replicate common stainless cast pipe elbows.
- Blocks simply snap together with the ability to rotate to create the exact radius necessary for your compact turbo manifold design.
- Each block features index points to aid in block rotation.
- The included block adapters enable you to build your custom manifold design on the vehicle and aid in avoiding obstacles for the perfect design.
- Once a design is made, metal parts can be cut and welded to replicate your model.

1-1/4" NPS Basic Kit (1.66" OD, 184 pcs)	\$499.99
1-1/4" NPS Pro Kit (1.66" OD, 368 pcs)	\$899.99

ICENGINEWORKS

FE MODELING BLOCKS

- Makes quick work of designing full exhaust systems, cat back systems, intercooler or turbo downpipe assemblies, and cold air intakes.
- FE Series kits work similarly to the header blocks by simply snapping together with the ability to rotate and create the exact radius necessary for your design.
- Blocks come in straight and curved blocks in a variety of center line radii and 15 degree sections.
- Each block features index points to aid in block rotation and obtaining the perfect radius.
- Once a design is made, metal parts can be cut and welded to replicate your model.

PORTABAND PRO

TUBE CUTTING STATION

- Fits Milwaukee 6232, 6238, 2729 and 2929 models and DeWalt DWM120 and DCS374 models only.
- Works in conjunction with the Iccengineworks Cutting Jig System for cutting prebent mandrel U and J bends for building custom headers, turbo manifolds and full exhaust systems.
- The Iccengineworks Cutting Plate slides against the fence for perfect cuts that are square to the bend tangent.
- Eliminates the need for a large floor standing vertical band saw and is a great solution for vertical cutting in small shop environments or for benchtop use.
- Made in the U.S.A.

Portaband Pro Vertical Workstation	\$369.95
Iccengineworks Portaband Tube Cutting Station (includes Iccengineworks Cutting Plate for EH, NP, or FE Modeling Systems)	\$459.95

ARC-ZONE WELDING POSITIONER

- The Arc-Zone Pro welding positioner features a small footprint with heavy duty performance.
- This positioner features a 110 lb vertical and 66 lb horizontal weight capacity.
- Tabletop is adjustable from 0 to 90 degrees
- This unit also has a 200 amp rating, a solid copper center spindle grounding block, and a convenient whip lead connection.
- Reversible variable speed control unit, on/off foot pedal, speed dial, and center purging capabilities come standard.
- Optional 2.5" and 4" chucks available
- 110v, 50/60 Hz

A-PT-052-PRO Tabletop Welding Positioner (w/ 7.8" diameter plate)\$1,999.99
A-PT-C025 2.5" Speed Chuck for A-PT-052 Welding Positioner\$299.00
A-PT-C040 4" Chuck for A-PT-052 Welding Positioner\$229.00

ROTO-STAR WELDING POSITIONERS

- Roto Star welding positioners are a must for precision welding.
- Can be ordered with a standard 3 jaw chuck with thru-hole and 250 lbs of capacity, or a surface plate for fixturing work pieces.
- Adjustable from 0 to 90 degrees in 15 degree increments
- Features a 300 amp double grounding system which eliminates feedback during high frequency welding
- Reversible variable speed control unit and foot pedal for hands free operation

Finance as low as \$66.00 / Month

Roto1 (w/ 6" chuck) (add \$650 for variable spd pedal) **SALE!**\$3,799.95

STRONG HAND RHINO CART

Finance as low as \$61.00 / Month

- The 48 x 30 inch Rhino Mobile Fixturing Station is unlike any welding cart on the market!
- Features a nitrided BuildPro welding tabletop and accepts all BuildPro accessories.
- Tabletop also features a black oxide finish and is reversible if one side is damaged.
- Comes complete with a 66 piece fixturing kit, heavy duty casters, and leveling feet.
- Rhino Cart provides plenty of storage for welding fixtures, clamps, and welding supplies.

- Table Height: 36 inches tall
- Hole Spacing: 2.000 +/- .0015
- Hole Diameter: .625 +/- .002 inch
- Plate Thickness: .625 inch

48" x 30" StrongHand Rhino Cart Mobile Fixturing Station\$3,385.00
48" x 30" StrongHand Rhino Cart Mobile Fixturing Station Deluxe Kit\$3,799.95
(includes stainless steel table top cover, side shelves, and 66 piece fixturing kit)
60" x 30" StrongHand Rhino Cart Mobile Fixturing Station\$4,430.00
48" x 48" StrongHand Rhino Cart Mobile Fixturing Station\$4,870.00

BUILDPRO FIXTURING TABLES

- The most adaptable welding and fixturing system on the market.
- Features a modular design that allows the precision ground and CNC machined top plates to be reconfigured to extend the width of the table for larger projects.
- Table is easy to set-up and tear down, saving valuable workspace.

- Heavy duty leveling feet
- 1-3/4" spacing between plates
- Table flatness: .004 inch/ft
- Hole diameters: .625 inches
- Hole spacing: 2.00 inches
- Plate thickness: .625 inches

Finance as low as \$103.00 / Month

47" x 38" Standard Table (add \$615 for Nitrided Table)\$2,870.00
47" x 46" Standard Table (add \$685 for Nitrided Table)\$3,540.00
78" x 38" Standard Table (add \$930 for Nitrided Table)\$4,305.00
78" x 46" Standard Table (add \$995 for Nitrided Table)\$4,930.00
94" x 46" Standard Table (add \$1,110 for Nitrided Table)\$5,915.00

BUILDPRO MAX TABLES

- MAX tables feature a continuous plate tabletop surface with 33% more machined holes than the standard slotted tables, for a maximized work surface.
- Just like the standard BuildPro tables, the MAX series features a modular design, allowing the plates to adapt to your project no matter the size.

48" x 48" BuildPro MAX Standard Table (add \$750.00 for Nitrided Table)\$3,810.00
60" x 36" BuildPro MAX Standard Table (add \$740.00 for Nitrided Table)\$3,855.00
72" x 48" BuildPro MAX Standard Table (add \$1,045.00 for Nitrided Table)\$4,835.00
96" x 48" BuildPro MAX Standard Table (add \$1,155.00 for Nitrided Table)\$6,375.00

STIEGMUND IMPERIAL 28 TABLES

- These German constructed tables feature five fixturing surfaces constructed from 1 inch (25mm) thick plate with additional reinforcement underneath the work surface.
- Fixture mounting holes are CNC machined to 28mm diameter, spaced 4 inches apart, and have a flatness rating of +/- .0025 inches per foot.
- These tables are constructed from a hardened steel before going through a plasma nitride treatment to achieve a hardness rating of over 750 Vickers (HV) (60.5 Rockwell).
- Imperial tables feature an engraved inch scale to assist in fixture setup
- See our website for accessory and leg options.

Imperial 28 Table

48" x 60" Imperial 28 Welding Table (Stationary Legs included)\$7,901.00

ARC-ZONE MONSTER NOZZLE KITS

This kit from Arc-Zone includes everything needed to convert your WP-17, 18, 26, CS300, CS410, and CK 3 model TIG torch to the Monster™ Gas Nozzle. These nozzles are engineered to deliver a steady umbrella of shielding gas to improve your TIG weld quality, reduce post-weld clean up, and minimize weld distortion.

- (1) No. 12 = 3/4" (19.0mm) Orifice Size with Engineered Screen Pack Installed
- (1) No. 14 = 7/8" (22.2mm) Orifice Size with Engineered Screen Pack Installed
- (1) No. 16 = 1" (25.4mm) Orifice Size with Engineered Screen Pack Installed
- (1) No. 24 = 1-1/2" (28.5mm) Orifice Size with Engineered Screen Pack Installed
- (3) ArcTime™ High Performance All-Purpose Rare Earth Tungsten Electrodes
- (1) High Performance Wedge Collet
- (2) Gass Lens Collet Bodies
- (1) Teflon Nozzle Gasket
- (1) Short "Button" Back Cap
- (1) Medium Back Cap
- (1) Long Back Cap
- (1) Spare Back Cap O-Ring
- (1) Gas Flow Tester
- (1) E-Z Wipe Weld Prep Packet
- (1) Handy TIG Welding Calculator

Monster Nozzle Pro Kit for 9/20 & 2-Series TIG Torches (compatible with WP-9, 20, 20F, Crafter Series CS310, CK-2 torches) **\$174.77**
Monster Nozzle Pro Kit for 17/18/26 & 3-Series Torches (compatible with WP-17, 18, 26, CS300, CS410 and CK-3 Series Torches) .. **\$196.77**
Individual Nozzle Kits for TIG Torches (No. 12, 14, 16, for 9/20 & 2-Series and 17/18/26 & 3-Series available) **Starting at \$71.78**
ArcTime Hybrid Tungsten Electrodes, 10 pack (1/16", 3/32" and 1/8" packs available) **Starting at \$27.50**

ARC-ZONE LOW PROFILE NOZZLE KITS

Get in those hard to reach places with the LowRider Stubby and 'Slammed' Nozzle kits. Compatible with a variety of popular tig torches, the LowRider Stubby and 'Slammed' kits decrease the torch head up to 5/8" depending on the torch series. The LowRider nozzles also ensure the gas coverage needed to get the perfect weld and are light weight to minimize torch shake. See which kit fits your tig torch below.

ARC-ZONE SHARPIE TUNGSTEN GRINDER

- Cut, sharpen, and grind your tungsten electrodes anywhere with the Sharpie DXCL Cordless Tungsten Grinder Pro Kit from Arc-Zone.
- This Pro Kit includes collets for 0.040 inch (1mm), 1/16 inch (1.6mm), 3/32 inch (2.4mm), and 1/8 inch (3.2mm) tungsten.
- This unit is variable speed and ranges from 5,000-32,000 RPM.
- Adjust the grinding angle from 15 to 45 degrees for the perfect grind
- The Milwaukee M12 Lithium battery can fully charge in 30 minutes.

Sharpie DXCL Cordless Tungsten Grinder Pro Kit **SALE** **\$458.70**
Sharpie DX Tungsten Grinder Attachment (recommended to be used with Milwaukee M12 rotary tool) **\$346.50**

STRONGHAND MAGNETIC POSITIONERS

MAV120

- Positioning magnets are the perfect accessory for any fabricator.
- These tools feature an on/off switch to make repositioning a breeze.

MSA47 6" Adjust-O Magnet Square, Large (45°/90°, 75 lbs. of force) ... **\$87.50**
MS2-80 6" Dual Switch Magnet, Small (90° square, 78 lbs. of force) ... **\$165.00**

| (1) MS45 Welders Magnetic Square | |

WVP, Welder's Variety Pack **SALE!** **\$239.50**

TRICK-TOOLS TUBE WELDING POSITIONERS

TC1

- This tube welding positioner is a great tool for race car builders and tube fabricators
- Can be adjusted to any angle and securely hold parts for tack welding without magnetizing
- This simple tool can save hours of frustration when working with coped tubes.

TC1 Tube Welding Positioner (7/8"-2" OD) **\$42.95**
TC1 Tube Welding Positioner **Buy two and save!!** **\$77.90**
TC2 Tube Welding Positioner (1-3/4"-3" OD) **\$49.95**
TC90 90° Fixed Tube Welding Positioner (7/8"-2" OD) **\$29.00**
TCKit Tube Welding Positioner Kit (Set of 4 includes 2-TC1s, 1-TC90, and 1-TBH) ... **\$129.95**

FEIN MAGNETIC VISE

- The VersaMAG features a permanent magnet with an easy-to-operate three-position handle for off, 30 percent, or 100 percent magnetic hold and can be used on 3/16 inch or thicker steel with up to 1750 lbs of holding force when used on 1-inch plate.
- Use it as a removable tool mount, welding fixture, or drill press vise.
- This magnetic vise can also be used in any position and includes a safety strap for use in inverted configurations.
- Magnet features a dovetail that allows the vise to be removed from the magnet and replaced with a Welding Fixture Plate.

Fixture Plate

Extended Height Jaws

- Extended height jaws are available to clamp up to 2-inch NPS (2.375" OD) pipe.
- Perfect for around the shop or job site

VersaMAG Portable Magnetic Vise, 4 inch (1750 lbs of holding force) ... **\$599.95**
VersaMAG L Portable Magnetic Vise, 6 inch (2810 lbs of holding force) .. **\$849.95**
Extended Height Jaws (4-3/4" x 2-3/8") **Starting at: \$44.95**
Welding Fixture Plate (fixture accessories not included) ... **Starting at: \$214.95**
VersaMAG Deluxe Kit, 4 inch (Vise, Ext. Jaws, and Weld Fixture Plate) ... **\$864.85**

BEND-TECH TUBE CUTTING SYSTEM

- Bend-Tech Dragon is a complete solution for tube cutting, etching, and marking and is combined with the world's most powerful software for tube design and manufacturing.
- Dragon has capabilities of plasma cutting end profiles, holes, and contours in round tubing.
- Bend-Tech Dragon will also mark or etch your bending information; including bend angle labeling, bend location, line-up marking, and weldment fit-up locations.
- A pass through chuck feeds the tubing and allows for pieces that are longer than the machine to be manufactured.
- The support yoke is designed to guide the tubing even if the material stock is not perfectly straight.

- The easy to understand control panel is built with LED lights to tell the operator exactly what the machine is doing and is designed for the most novice of machine operators.
- Windows PC is required and is sold separately. This system will not operate on Apple (IOS) platform.
- An optional Technology Package Accessory is available and includes computer, preloaded software, computer cabinet, and more!
- An optional Water System is available to increase cut quality, reduce slag, keep material cooler, and extend torch consumable life.

Bend Tech Dragon A250 Tube Cutting System, 12 ft (plasma sold separately) **Call for Pricing**
Bend Tech Dragon A400 Tube Cutting System, 24 ft (plasma sold separately) **Call for Pricing**

ARCLIGHT DYNAMICS CNC PLASMA TABLES

ArcLight Dynamics CNC plasma tables represent the very best in small shop CNC plasma tables at an affordable price. The control system is one of the most feature rich on the market, and comes with a three year warranty, plus support. ArcLight tables are available in two options: Ultra or Elite. The standard Ultra package uses a Linux based computer with 3 separate software for CAD, CAM, and CNC operations. The Elite package includes a Windows computer, along with the popular FlashCut Pro software with CAD/CAM/CNC operations integrated into one single program. Their heavy-duty frame increases the strength of the table, reduces noise and vibration, and increases table accuracy and cut quality. All ArcLight Dynamics plasma tables ship fully assembled and tested less plasma torch. If a plasma torch is purchased with your table, it can be complete and ready to run.

4 X 4 ARC PRO CNC PLASMA TABLE

- The ArcPro 4 x 4 CNC plasma table represents the very best in small shop plasma tables at an affordable price.
- Includes water table, torch height control, and computer with software.
- Perfect for schools, home shops, and for those with limited space.
- Available as an Ultra or Elite package.
- Comes with a 3-year warranty, plus support!

5 X 10 ARC MAX CNC PLASMA TABLE

- This industrial-grade plasma table features a fully welded and powder coated frame made from 3/16 inch wall tubing for a rock-solid cutting platform.
- 124 x 62 inch Cutting Envelope
- Built for fabrication shops and manufacturing companies cutting large parts and production runs.
- Available as an Ultra or Elite package.

ArcPRO 4 x 4 CNC Plasma Table (Add \$9,500 for Elite package) **\$13,495.00**
ArcPRO 4 x 8 CNC Plasma Table (Add \$9,500 for Elite package) **\$16,495.00**
ArcMAX 4 x 8 CNC Plasma Table (Add \$9,000 for Elite package) **\$23,995.00**
ArcPRO 5 x 10 CNC Plasma Table (Add \$9,000 for Elite package) **\$19,995.00**
ArcMAX 5 x 10 CNC Plasma Table (Add \$9,000 for Elite package) **\$26,295.00**

JET INDUSTRIAL MILL/DRILL

- JMD Mill/Drills are great for light-duty machine work, drilling, and tapping.
- JET Mill Drills run off 230v 1ph power and feature 360 degree swiveling heads, R-8 taper spindles, and 350 lb capacity cast work tables.
- Each Mill/Drill comes standard with a 1/2" drill chuck with arbor, 3" angle vise, adjustable carbide face mill with arbor, work light, and more!
- An optional X-Axis Table Powerfeed accessory is available to increase speed and efficiency.
- While the footprint may be small, the JMD Mill/Drills still include JET's RED Assurance 2 year warranty.

Model	Table Size	Drilling Capacity	Face Mill Capacity	End Mill Capacity	Spindle Speed (RPM)	Column Dia.	Quill Dia.	Spindle Travel	Spindle to Table
JMD-15	7.5 x 23"	1"	2.5"	0.50"	110 - 2580	3.625"	2.5"	3.5"	15"

JMD-15, JET Mill/Drill (Includes 1 hp motor, 350 lb capacity work table, and 2-1/2" angle vise) . . . **\$3,024.00**
JMD-18, JET Mill/Drill (Includes 2 hp motor, 400 lb capacity work table, and 3" angle vise) **\$3,871.00**

JET INDUSTRIAL VARIABLE SPEED MILL

Finance as low as
\$316.00 / Month

- JET Vertical Milling Machines combine precision and reliability for years of service in professional environments.
- JET Mills are constructed using the certified Meehanite® casting process for a rigid foundation.
- Variable Speed mills feature a 3 hp motor with a variable speed pulley that is adjustable from 60 - 4200 rpm.
- The precision bored and honed milling head ensures quality cuts, while the three-stage power downfeed with automatic stop makes the JET Variable Speed Milling Machines easy to use.
- Standard features include hardened and ground ways & table, one shot lubrication system, large chromed quill, internally cooled spindle head, internal coolant tank, and adjustable gibs throughout.
- Optional configurations are available including your choice of ACU-RITE or Newall 2 or 3-axis DRO, 2 or 3-axis powerfeed, air powered drawbar, and more.
- JET Mills are uncrowned in the USA to go through a detailed 30-point inspection and are backed by their industry leading RED Assurance 2-year warranty.
- JET offers plenty of milling options for hobbyists and machine shops.
- Made in Taiwan to JET's professional standards.

JET INDUSTRIAL EVS-1440B LATHE

- JET Lathes are designed for optimal performance in any workshop.
- Featuring a maximum run out of .0004", rigid Meehanite castings, and electronic variable speed, JET Lathes retain their tolerances and rigidity for years of use.
- Operating features include an apron-mounted actuation control, jog button for easy gear engagement, electronic variable speed for optimal speeds, and a two speed gearbox for operation at low (40 to 365 RPM) and high (220 to 2,000 RPM) speeds.
- An Electronic Chuck Key Docking Station prevents the machine from operating without the chuck key seated in its place and a Foot Pedal E-Brake quickly stops the machine in case of an emergency.
- Optional DRO's from Newall and ACU-RITE provide increased precision, while a Taper Attachment and Collet Closer expands your Lathe's capabilities.
- Made in Taiwan and backed by JET's industry leading Two-Year Red Assurance Warranty.
