

Disc Grinder Mounting Instructions

Select Coarse Thread (Gold) or
Fine Thread (Silver) hardware
to match Multitool grinder

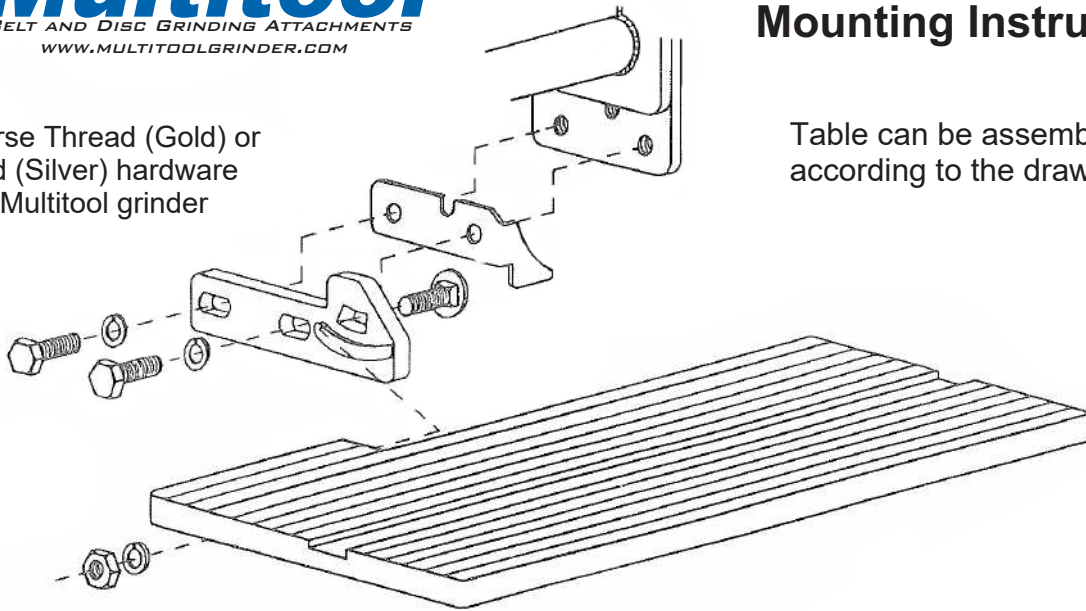

Table can be assembled
according to the drawing.

In some cases, the lower bolt for the Multitool tensioner arm interferes with attachment of the miter table mounting bracket. If that is the case, it will be necessary to add a second washer under the head of the tensioner arm lower attachment bolt. We've included this black oxide coated washer with the miter table hardware kit.
