HOW TO USE

TRANSPORT ONE GAS CYLINDER:

1. Slide the cylinder onto either the left or right side of the rack, using the rollers, until it is fully in place.
2. Secure the cylinder on the Rack using the Hold Down Strap (A4).
3. Slide the Single Cylinder Strap (A3) to the bottom of the cylinder and fasten it to the handles on the Rack.

TRANSPORT TWO GAS CYLINDERS:

1. Slide two cylinders onto the left and right side of the rack, using the rollers, until they are fully in place.
2. Secure both cylinders on the Rack using the Hold Down Strap (A4).
3. Slide the Double Cylinder Strap (A2) to the bottom of the cylinders and fasten it to the handles on the Rack .

MAINTENANCE

Regularly inspect Cylinder Transport Rack for any signs of damage or wear. Keep moving parts lubricated and clean. Ensure all safety features are functioning properly.

SAFETY

Always wear appropriate personal protective equipment (PPE) when operating the Cylinder Cargo Rack. Follow proper lifting techniques to prevent injuries. Ensure cylinders are securely restrained before transport. Be mindful of surroundings and potential hazards.
